NEW YORK, N.Y., FRIDAY, DECEMBER 19, 1947

No. 51

SIU Guards **DemandRaise OnWestCoast**

SAN FRANCISCO - At a special meeting held on December 4, members of the Seafarers Guards and Watchmen's Union voted unanimously to demand a fifty cent hourly increase in wages. The companies involved have until December 22 to comply with this demand.

At the present time, three companies are being negotiated with. They are American Patrol, Young's Patrol Service, and U. S. Protective Service.

Pledges of all-out support for the Guards and Watchmen were immediately forthcoming from the Masters, Mates and Pilots, and other AFL Unions.

According to the Taft-Hartley law, guards and watchmen are not allowed to belong to any international union. This leaves those workers no way in which to gain the same conditions and wages which union men and women receive through the unions representing them.

The Seafarers Guards and Watchmen's Union, affiliated to the American Federation of Labor, has declared that it will continue organizing and fighting for union wages and working conditions for all Guards and Watchmen.

Win Election **Grace Line**

After a two-year organizational drive, the Merchant Marine Staff Officers Association, the Pursers Division of the SIU, won a smashing victory in an NLRB election held aboard the ships of the Grace Line.

The Company received just two votes to 50-odd for the Union, Tom Hill, the division's east coast representative, revealed. Although 15 votes east by Chief Pursers were challenged by the company as being cast by supervisory personnel, the vote as it stands is sufficient to assure recognition for the Union.

As soon as the Union is certified, the Staff Officers will begin negotiations with Grace, and will seek the standard rates for Pursers and Purser-Pharmacists Mates which are provided for in other contracts.

The new rates will mean raises in excess of \$20 a month for Grace Pursers who will also demand improved general working conditions.

"Mr. Chairman"

Seafarers, as well as members of other unions, have a chance to learn Parliamentary Law and Public Speaking under the leadership of Joseph Glass. prominent labor attorney. The classes are held each Tuesday evening from 6 to 8, in the SIU Hall, 51 Beaver Street, New York City.

All Seafarers are urged to attend so that they can learn how a meeting should be conducted.

Other unions have been invited to send members, and the class, which had a preliminary session on December 16, will start in earnest on December 23.

Here's a chance to become a real smooth orator at no cost. And in addition, coffee will be served and the television set will be turned on after school.

Poor Ship Construction Has Been Responsible For Many Sea Accidents

Membership Says Very Merry Xmas To III Brothers

With true Christmas spirit, the membership of the SIU, assembled in regular meetings on Wednesday, December 17, votedto give all bookmembers and permitmen in hospitals an additional \$10.00 for the holidays.

Speakers who took the floor on the motion pointed out that just sending money to the hospitalized Brothers is not enough. What the men in the hospitals need, they said, was more letters from their old shipmates and friends.

George K. Novick, Editor

A Very Merry Christmas

Our Union has a great deal to be happy about this Christmas season. During the past year we have won gains in wages and working conditions and, above all, we came to grips with the mighty Isthmian Steamship Company and won an outstanding victory.

New companies have been added to the already imposing list of SIU-contracted outfits, and there are indications that the organizing drive will gather many more companies under the Seafarers banner in the next year.

Through our traditional use of economic action at the point of production, our Hiring Halls and the Rotary Shipping System have been protected, and this in spite of an all-out attempt on the part of the government to do away with these features.

It is true that the Taft-Hartley law is an ever-present threat to the existence of free labor unions. The full strength of the American labor movement must be massed against the "Slave-Labor" Law, and we must not rest until the Act is wiped off the books.

But, on the whole, it's been a good year and members of the Seafarers International Union have the right to review the happenings of 1946 with pride in their achievements. Besides fighting our own battles we found time to go to the aid of office workers, waiters and waitresses, the CIO Shipyard Workers, and any other honest union which came to us for assistance.

Two Halls have been purchased, one in New Orleans and the other in Mobile, and plans are underway to buy membership.

In the few short years since its inception the Union has come a long way. Many past Christmases have looked dark and dreary, but the fight was never given up, and now the membership of Seafarers can look forward to the future with confidence.

This Christmas season finds the SIU in excellent condition, well set up financially, and ready, willing and able to complete the job of organizing the unorganized merchant seamen of the United States. It's a big job, but it can be done, and only the SIU can do it!

Have You Voted Yet?

Voting for officers for the Atlantic and Gulf District closes on December 31 so there is still a little time left to cast those last ballots. Members can vote in any SIU Hall.

It is the duty of all members to vote in this election. The officials who are being chosen now will represent the Union for the coming year, and it promises to be a year of growth for the SIU, but at the same time a year of tension and crises.

More votes are being cast in this election than were ever cast before. That's a good sign, and shows that Seafarers are aware of their responsibility.

The Union can only be as strong as the membership. Voting, like living up to the Constitution and Shipping Rules, is a duty. No one must shirk.

Now is the time to have your say. This is your Union-pick its leaders and support the men you pick.

other Halls whenever such purchases will benefit the Men Now In The Marine Hospitals

These are the Union Brothers currently in the marine hospitals, as reported by the Port Agents. These Brothers find time hanging heavily on their hands. Do what you can to cheer them up by writing to them.

Negotiations

The Negotiating Committee for the Union has met twice with the Calmar and Ore Steamship Companies. The steamship companies have agreed to the overtime and wage increase which is now in effect with the other operators, but no progress has been made in the General and Working Rules. There is a meeting scheduled for Tuesday, December 23, 1947.

Expenses and Finances

As recommended by the last Quarterly Finance Committee, Headquarters Office has reduced its personnel by three persons. The work in Headquarters is now being laid out so that in the future it will be possible to let a fourth person go.

I have received letters from the Branch of New York and the Branch of Baltimore stating that they are making arrangements so that they can let a man go from each port, week ending December 19, 1947.

As recommended by the Committee, the Hall in Marcus Hook is being closed as of week ending December 19, 1947. The membership has previously gone on record to close this Hall as soon as it was possible without interfering with Union representation in that Area.

It is recommended to the membership that Steve Cardullo, Agent in the Port of Marcus Hook, and Bob Pohle, Patrolman in that Port, be transferred to the Port of Philadelphia as Patrolmen. Philadelphia at this time is operating shorthanded, and these two men will replace the part-time Doorman and Patrolman, and the staff will consist of Agent Ernest B. Tilley, who recently relieved Organizer William Higgs, Dispatcher Bill Brown and two Patrolmen, Cardullo and Pohle.

This will be a saving of approximately \$350 weekly to the Union and will give proper representation in the Philadelphia area, including Marcus Hook, Camden, and Delaware.

This matter has been discussed with the Marcus Hook and Philadelphia officials and meets with their approval.

JACKSONVILLE TO CLOSE

As per the Committee's recommendations, the how-war exposed the weakness Jacksonville area has been surveyed and it is of some vessels. found that the NMU no longer has a Hall in that Port, and that ships are no longer being put out in the Brunswick, Georgia, Shipyard.

Those were the primary reasons for opening best our Union can do is to put the Jacksonville Hall. There are hardly any pressure in this direction by expayoffs in the Port of Jacksonville, and most of posing this deficiency. those ships that are in transit in that Port hit other A&G Ports where we have Branches.

Therefore, it is recommended that the Port of Jacksonville be closed and that James Hanners, Jacksonville Agent, be assigned to the Port of Savannah as soon as the Union's affairs can be wound up in Jacksonville.

The Port of Savannah will be instructed to notify Headquarters whether they can still operate at the same weekly expense they now have after Hanners has been assigned to that port. If any representation is necessary in the Port of Jacksonville, it can easily be covered by some other Port.

Headquarters Office is investigating other recommendations made by the Quarterly Finance Committee, and will be able to report further on this at the next regular meeting.

Assessments

Stamps for annual assessments are being sent ten in heavy seas is bound to to all Ports now, and assessments for the year strain its machinery. 1948 can be paid in any Port where we have Branches.

Next Regular Meeting

The next regular meeting would fall on New Year's Eve, December 31, 1947. Because of the fact that a lot of the guys want to be home with their families, or celebrating, it is recom- much for the law to compel Federation, meeting in London. mended that all Ports hold their next regular snips to carry ballast when they November 25 to 27, noted with meeting on Friday, January 2, 1947.

Seafarer Got Bad Deal In Hospital

"Be it ever so humble, there's no place like home."

That familiar tune is now the favorite song of Seafarer Matt Fields, and after reading his story, it will be easy to see why.

Matt took sick while in Antwerp, Belgium, and after arguing with the Captain and the company agent, was finally allowed to go to the hospital. There, instead of the care he needed, he was treated so miserably that within two weeks after he entered the hospital, his weight dropped from 155 pounds to 122 pounds.

Another seaman who was in the hospital the same time, Anthony O'Brien, a member of the Irish Seamen's Union, became so angry at the way Fields' case was being handled, that he went to the hospital director and complained. After that the nurses took slightly better care of Brother Fields.

In a letter to the LOG, O'Brien states the case plainly. "Being as I am a seaman myself," says Brother O'Brien, "and belonging to the Irish Seamen's Union, and knowing Fields for five weeks in the hospital, and knowing him to be a strong SIU man, I could not, on principal, stand by and see him treated so bad by people who are supposed to be kind to the sick. It would not have been just of me if I had not complained to the director. I it was my duty."

Matt Fields, right, and friend Bill Wild.

come to his support, there was St. Vincent's Hospital. no telling what might have hap-

a damn," he said. "The company agent and the American Consul were only interested in getting me out of the hospital as fast as possible. The USS man didn't care what happened to me and if Anthony O'Brien hadn't helped me, I sure would have died."

The difference between the two hospitals was like night and "I was dying, and nobody gave day. Under the care of Dr. Bruno Fierens, Fields soon recovered enough to be able to return to the United States.

> Right now Brother Fields is in the Staten Island Marine Hospital, and it will be a little while before he can turn to again. But as he puts it, "It doesn't make

Many Accidents Caused By Poor Construction

(Continued from Page 1)

The responsibility for safe construction of ships rest largely with the government, and the

Looking over the issues of the LOG for November 28 and December 5, I find two articles written by seamen exposing the shortcomings of freighters at sea.

The SS Alexander S. Clay reports she lost her propeller in a moderate gale off Brindisi, Italy. Can it be that these Liberty ships are reaching the straining point and that they fall apart through lack of care?

QUICK PROFITS

Many companies, in their desire to make quick profit with little expense, run ships without ballast when they can't get cargo. Running a ship light too of-

in a very short space of time. At ably in Oslo.

this rate, the statistics must be very high over a period of a year. The weakness in ship construction may have an excuse, because the ships were built for a war emergency.

However, a ship-building program of the future could not justify bad construction in the light of present experience and knowledge.

If accidents through carelessness continue to be too high, the Union may be forced to take on the added responsibility of insisting on greater safety in the care and operation of ships to protect its members.

As one who was lucky to miss having the foremast of the Mandan Victory fall on him, I feel justified in submitting my criticism for better safety at sea for

MERE'S WHAT

QUESTION: What suggestions do you have to heighten interest at shipboard meetings?

CLARENCE LOHNE, Wiper:

At present, there is too much talk in shipboard meetings about things we newcomers know nothing about. I've only been in the Union eight months, and there is a lot I'd like to know about small details of everyday Union life aboard ship that we don't hear about in the meetings. Another thing: the way some of the meetings are run there are too many people talking at once. You hardly get a chance to open your mouth to ask a question or get something off your chest before everybody chimes in.

ALBERT BAGLEY, Wiper:

I think more coordination is needed between the action decided upon at the meeting and what takes place. Many times the crew votes to do something or to take action on a beef, but after the meeting it is forgotten and nothing comes of it. Delegates should be instructed at the meetings to carry out the expressed desire of the crew. At the meetings it is a good idea to call upon oldtimers to tell what they know of the Union's waterfront record. All of us can stand more knowledge of the Union's past.

HAROLD SHEPROW, Oiler:

If the meetings can be kept orderly to insure the quick dis- be used for Christmas presents posal of business, I believe that of their choice. there will be interest enough from the crewmembers present. The Seafarers members now undergoing treatment at Fort Stanton are: John P. Williamson,

NICK CALZIA, AB:

There should be some time set aside at the meetings for educating the new members and permitmen. The Union should put literature on the ships pointing up the Union's history, policies, etc. Many men, being at sea so much, cannot keep up on what is taking place in the Union. I believe two meetings a month are sufficient to handle most matters and if something unusual arises, a special meeting can be called. Most of all, sound off at the meeting if you have a beef; don't wait until later and beef in your foc'sle.

The a bit and account for a good ment has probably been on the beach for a few weeks and is On the Isthmian ships, all of probably hard pressed for cab-

> Moreover, chances are that he has probably lost out on other jobs he could have taken in the meantime.

THINK TWICE

Men piling off ships should bear this in mind and give it a second thought if there is a possibility of their changing their mind.

If you give notice of piling off and your relief appears, pack your gear and hit the gangway.

Tip of the week: Men paying off ships in New York should register for a ship and then apply for unemployment pay at 277 Canal Street. Even if you expect to be on the beach only three or four weeks, it will pay you to apply.

No money is paid for the first week after applying, but after that you are due \$21 a week. This money is yours, having been deducted from your pay, so go after it.

Duluth Shipping

By EINAR NORDAAS

DULUTH - Shipping on the Upper Lakes is now through for the year with the last ship leaving this Port on December 10. No more ships are expected to arrive until the opening of regular navigation once again in the Spring.

Two ships are at the Knudsen Shipyard. They are the SS Crescent City (Browning) and the SS

A few SIU members have been coming this way since laying up their ships .However, we don't know whether we'll have enough for a quorum to hold meetings or not.

Our Duluth area AFL Maritime Port Council is functioning quite smoothly now, and we are holding regular monthly meetings. The next meeting is scheduled for Tuesday, Dec. 16, and will be held in the Port of Superior.

As for the weather, it's settling into a typical Minnesota winter with plenty of snow, ice, and sub-zero temperatures. That's how we breed men in this North

The Patrolmen say

Stick To It

NEW ORLEANS - One of the contract provisions our negotiatwon is that which reads: "In port when sea watches are broken, a gangway watch shall be maintained at all times. A sailor shall be assigned to maintain this watch'

During negotiations the companies opposed the inclusion of this clause, but the Union stuck to its guns and it was finally pay for the deck department.

Now the shoe is on the other foot. The companies are insisting that the crews live up to this clause; but, for unknown Several ships which had been reasons, men aboard some of lying around unassigned, waiting the ships are not abiding by the agreement.

> During the past few weeks ships have arrived in port with logs against men for leaving the gangway without being properly

It is understandable when a pect more activity of the same man leaves for a few minutes to kind next week. We also look get a cup of coffee or a smoke, for two Bernstein ships and one but the majority of the logs have Waterman ship to arrive here for been levied against men who have been caught in the mess-The Robin Kirk, a baby flat- room playing cards or in their

> In several cases we have maning.

If accepted, she will call a If this beef continues to arise on the short end of the stick.

Every log slapped against a crewmember for missing or leaving the gangway watch is a contract violation by the Union. ing committee fought for and We can't very well press company violations of the contract if we, too, are guilty.

> If someone with a legitimate gripe gets a quick shuffle by the company, he may find the blame lies in the fact a fellow crewmember decided to knock off his gangway watch for a few hands of poker.

> This matter has been the topic of considerable shipboard comment and in every case the men agree that a man who leaves the gangway is as guilty as a man who leaves the wheel, lookout or the fireroom without being properly relieved.

This beef came up recently here aboard a ship from New York in transit to the Far East. The crew, however, had a stopper. When they found they had ly N.G. a gangway watch with the urge to travel, they called a special meeting for the Deck Department and warned the itchy footed brother.

Too, they told him if he was guilty of leaving his watch again, he would be taken off gangway watches for the remainder of the voyage.

The crew's fast action on what could have become a thorny beef is commendable. This ship is now enroute to the Far East, and I'm sure that when she hits the States again this beef will not come up at the payoff.

DOC A CALAMITY

This would come on top of the fact that we have been getting very little cooperation from this calamity named Dr. Springer they have at the hospital and his stooges. We have had nothing but complaints lately from this so-called Marine Hospital. Most of the patients call it the "Springer Concentration Camp."

I have been down there quite a few times and I am inclined to agree with what the boys say. The doctor has gone so far as to damned near pick guys up out of bed and throw them out of the hospital.

I have also heard that he has called a lot of men names which the law prohibits from dictionaries. All in all, some of the patients refer to him as "Heil" Springer.

If any institution is to be investigated by the Commissioner of Marine Hospitals, this hospital in Puerto Rico certainly ought to have top preference.

(Ed. note: As the first step of an investigation of conditions at the San Juan Marine Hospital, Union Headquarters has written a letter to the Surgeon General of the United States Public Health Service in Washington.)

ships came in for payoffs.

Nathaniel Currier, Waterman; which was collected. Mississippi, terminated trips here and in Houston. Immediately the Currier took on a new crew and prepared to head out for another trip.

While she was here we handled beefs pertaining to shipboard duties. The air was much clearer after we showed the Engineers that Oilers standing throttle watch, and the Mate that nonroutine duties on deck while standing gangway watches, were taboo without the payment of overtime.

Another similar matter occur-

Boston Returns To Slow Days

By JOHN MOGAN

BOSTON-Shipping and business in this area might well be shown on a graph showing the vagaries of the Russian ruble. One week it reaches a high point where it is necessary to send to New York for men, thus giving the boys in the Gotham area the impression that things must be pretty good up here.

Then, by the time they arrive here for a look-see, there is nothing in the harbor and no immediate prospects of anything arriving. And so it is right now -very quiet.

In the beef department, there was only the SS Yamhill (Ampac). This one, which recently paid off after a long trip, arrived in pretty tough shape.

The gang that paid off left a sizeable repair list behind, and it was a case of giving constant attention to the many beefs in order to get the ship straightened out. Everything is shaping up well now, and chances are the Yamhill should be leaving here coastwise within a day or two.

COOPERATIVE CREW

On the other hand, the SS Arickaree (Pacific Tankers) paid off in Mellville, R. I., in excellent style. The gang was very cooperative and left their quarters in apple-pie order, besides giving Patrolman Sweeney excellent assistance with the OT disputes.

This crew collected a \$58.00 donation, and after a short meeting, voted to donate \$15.00 of it to the LOG and to divide the remainder among the patients at the Brighton Marine Hospital for Christmas.

Together with the funds presently on hand and the donation voted by the Union, our boys in the Brighton Marine Hospital and all other Marine hospitals should be assured of a brighter Christmas.

Talking about Christmas-since this will be the last article of mine to appear before the holiday season is upon us, I would like to take this opporuntiy, on behalf of the Boston staff and myself, to wish all the members everywhere a Merry Christmas and a New Year for good shipping and prosperity for all.

GALVESTON-The old ship-|red on the Westervelt, where the ping barometer swung around Mate had the gangway watch from cloudy weather to fair dur- riding herd on a stowaway ining the past week, when three stead of watching the gangway.

YOICKS! YOICKS!

The local boys who have been seafaring into the hinterland for for the past week due to rain.

Our supply of jerked venision and bird is getting mighty low, but if the weatherman is right, things should be better as he predicted fair and cold weather.

Maybe I'll oil up the old fouling piece and stalk a bird or two if the huntsmen come back with empty bags - I'm beginning to cultivate a taste for game.

Organizing work is pretty much at a standstill here for the simple reason that no unorganized ships of the fleets we are working in are in port.

This won't last long, however, as these ships hit this area pretty regularly and, in all likelihood ,a swarm of them will hit port all at once.

With Christmas just around the corner, the gashounds have become scarce. Not that they're laying off for the holidays, it's just that the local law enforcement boys are doing their shopping early and seem to be concentrating on the gashounds.

If you want to enjoy Christmas, be on your good behavior in this port-Santa Claus finds it kinda rough in squeezing through those bars.

The first novel in James Farrell's trilogy tracing the tragic life of Studs Lonigan in Chicago's Irish slum. From the end of his formal education in grammer school through his experiences exploring life with a local gang, the author develops the character of Lonigan with the strength and realism which made him one of the outstanding writers of the '30s.

Farrell, in this his first successful novel, convincingly makes Studs a prototype in an environment which breeds bigots and criminals.

SHORT STORIES, by Thomas Wolfe, 158 pages, Penguin, 25

A collection of some of the best short stories by the wellknown author of "Look Homeward, Angel" and "You Can't Go Home Again." Among them is "Only The Dead Know Brookmade good on Park Avenue, lyn," a masterpiece in Brooklynese dialect.

> Sometimes called the Prose Poet, Wolfe was a master of description and often in his books took a chapter to describe a single person. Taken in smaller doses, as in this book, he does not become boring and is easily digestable.

> RELIGION AND THE RISE OF CAPITALISM, by R. H. Tawney, 235 pages, Penguin Books,

H's your union...

Good Shipping For Rated Men In Philadelphia

By E. B. TILLEY

PHILADELPHIA - This is my first report since relieving William E. Higgs as Port Agent of the City of Brotherly Love. At this time, I'd like to state that shipping still remains good here and that, from reports I've heard from various steamship companies, it will remain good for a few days to come-but not for everybody.

A tip to rated men, ABs Firemen and Oilers: This is a good spot to head for if you're in a slow shipping port.

Also a tip to OS: This is a good port to stay away from, we have plenty of OS around.

Another tip to the wise: In case you decide to come to Philadelphia, don't forget your topcoat. We've had snow and ice on the ground for three days this past week.

We had several payoffs during the week, with all beefs being settled to the satisfaction of the crews. We will try to keep the payoffs that way-to the satisfaction of everybody.

BAGGAGE RE-STOWED

We have made different arrangements in our baggage room. It has been moved to the second floor, the same floor on which the Dispatcher has been operat-

Incidentally, there is a lot of unmarked gear here which we wish the owners please would claim. In the future, in this port, all baggage checked will bear the name, book number and home address of the member on the check.

If the gear is not called for in 60 days, it will be shipped COD by Railway Express to the address on the check.

This is to prevent baggage from being kept so long that it piles up and uses too much of what small space we have.

That about winds things up

US To Sell All

The sale of all remaining

It was announced that 464 tankers have already been sold of which 390 were T-2 type ves-

Of these, 140 tankers were sold to purchasers who were not citizens of the United States.

Of those sold to citizens of this country, 186 T-2's, 71 will be transferred to Panamanian registry.

The rest, mostly Liberty-type, were sold to U.S. citizens for service under the American flag.

Out of the 186 T-2's sold to American operators, 77 have already been delivered. Delivery on the others is expected soon.

Bunker Seeks Members' Aid For Story Of Ships In War

John Bunker, former Seafarer of their trip, especially surand member of the LOG staff, vivors of the Troubador or who is working on a book depicting the American merchant seamen's contribution in World War II, will be in New York for a month beginning Jan. 5 to gather material.

Brother Bunker will be on leave of absence from his job as shipping news reporter in Boston for the Christian Science Monitor.

He is especially interested in getting help from SIU men who sailed during the war and is anxious to speak to all brothers whose experiences would be helpful.

Bunker outlined the material he is interested in as follows:

1. I would like to hear from any men who made long voyages in ships' boats, such as the survivors of the James Denver, Star of Scotland, Prusa, Robin Moor and others, I am interested in as much of their experiences as they can give.

2. The "road to Russia in 1941-42-43." If there are any SIU men who sailed in the famous Fourth of July convoy of 1942, I'd like to hear from them, with all the incidents

3. The early period of the war when the ships sailed alone is important, too. How about the boys from the Bienville, Coast Farmer and others? Write plenty, boys-the more ihe better.

4. The Malia convoys. Only a few ships made it, but some SIU lads were among them and I'd like to have their stories of the trips.

As Brother Bunker has pointed out, the job done by the seamen has not yet been properly presented to the public in spite of the fact that "it's a really great yarn."

The story should be told and all Seafarers who can help in telling it should pass along their stories to Bunker. Brothers who been in favor of retaining the Most of the beefs on the Gerwish to submit material can send it to the Seafarers Log, 51 Beaver Sta New York 4, N. Y.

The Persian Gulf is a Brother Bunker.

Log Available **In Bound Volumes**

Seafarers who wish to keep chronological record of Union activities can do so very easily. There are available a number of bound volumes of the SEAFARERS LOG at nominal cost, and are to be disposed of on a first-come, first-serve basis.

Prices, which cover costs to the Union, are \$2.00 for the January-April 1946 edition; \$2.50 for the May-December 1946 volume and \$2.50 for the January-June 1947 edition. Bindings are of sturdy buckram with dates lettered in gold.

All those who want to set up a permanent file with a minimum of effort should act promptly. Orders for any of all of the available editions should be sent to the Seafarers Log, 51 Beaver St., New York 4, N. Y. Checks or money orders for amount of order should be made out to the Seafarers International Union. Enclose address to which volumes are to be sent and they will be mailed pre-paid immediately.

These bound editions may also be purchased directly at the 4th floor, baggage room, of the New York Hall. Make sure you get your copies by acting now.

SS Gervais Completes Rough Trip To Persian Gulf; Was Out 8 Months

The SS Gervais, Pacific Tankers, took eight months and 20 days to get from New York to Melville, R. I .by way of the Persian Gulf, Japan and Antwerp. Moreover, the whole experience was "one of the roughest trips any of us ever made," ac-

Deck Delegate, who has gone to be stored for six to nine home to Pittsburgh to recover.

were squared to the satisfaction of the crew by Boston Patrolman James Sweeney when the ship hit Melville, December 4, but there were some beefs that were beyond squaring. It was just too late. Nevertheless, the payoff was very clean, Dugina reports.

There wasn't much a Patrolman could do in Rhode Island when the ship ran out of im- tish tinned sausage and similar portant stores. Or the lack of cigarettes. Or the heat. Or the three-and-a-half months without shore leave.

POINT TO POINT

Follow the route of the Gervais and you'll get an idea of why the trip was tough. She left New York in March and went down to Curacao where she picked up some oil. She took that load to Vado on the Italian coast near Genoa.

Then she went out through the Suez Canal to Bahrein Island, and to Kuwait in the Persian Gulf and back to Haifa in Palestine; and after that back to the Gulf to Abadan, and then to The growing feeling for a Italy again; still on the shuttle, change in the shipping rules to she went back to Abadan, then dates, she hit Bahrein Island The men of the Polaris made again, Kuwait again, Haifa again,

Alcoa Polaris goes on record in When the boys went ashore at support of a change in shipping Antwerp they didn't waste any rules to end shipboard promo-time getting the feel of dry land tions and calls for the filling of again, Dugina says, and adds all vacancies through the Union that a little steam was blown off in the process.

PRICES HIGH

cording to John Dugina, AB and planning. The ship was supposed months but ran out of meat in All beefs that could be settled about four. At various times the ship was out of eggs, flour, sugar, and salt, not to mention the above-noted cigarettes. In the latter connection, Dugina says the slopchest was short of a number of items on different occasions including razor blades and working gear.

NO CAMEL STEAK

The Captain picked up stores at one time or another in Port about the bum chow the boys Said, Japan and Antwerp. But had to eat in the Persian Gulf apparently Australian and Bri-

meats are not up to the American standard - or at least the crew didn't think so. Some weeks were "very trying," Dugina explains. He thinks that the Arabs around Port Said and Aden hid their Camels in fear that somebody would butcher a few for steaks and roast prime ribs. After Antwerp things were better, however, all the way to Melville -via Aruba.

A couple of times the Captain picked up British cigarettes and they sold at 40 cents a pack aboard ship. Other supplies, notably razor blades and working gear were acquired from passing American ships.

On one of the trips into the Persian Gulf, the boys did get shore leave. They got about three hours one night in Abadan which meant a few sour beers and a bad show at the British seamen's club.

THAT PANAMA FLAG

One thing that disturbed the Gervais crew was the sight of so many former American tankers sailing around under foreign subject, stimulated by Paul Hall bit surprised by the way prices flags. Just to show what this situation means to American seamen, Dugina cites one flying the Panama flag and carrying an vais focussed on the food, the Italian crew. Men being called to stand by during temporary mooring withmirror to Steward's department time. Specified time for linen issued to crew members. Night lunch to be improved, and watch system of putting out night lunches to be adopted. Investigate closed galley every afternoon. Overtime slips to be furnished for overtime. Election of delegates. M/S/C meetings are to be held first Sunday after payday. In event ship is in port, to be held following Monday M/S/C meeting be adjourned.

* * * ANTINOUS, Nov. 16-Chairman Ewald Freidrich; Secretary William S. Varro. New Business: Motion carried to have patrolmen check the meat aboard ship as meat was taken from another dust cans put in each shower ship and crew is beefing over had meat. Decision to straighten out steward who has been showing preference to officers and passengers.

MILWAUKEE CLIPPER (Wisconsin & Mich. SS Co.), Oct. 7-Chairman John Josefeck; Secretary, Same. Meeting called to order. Agent Jansen reported to crew of results reached through negotiations with Wisconsin and Michigan SS Co. for changes for winter operation. Discusion followed ending with results of the negotiations reached between the Union and Company be accepted by the crew members. M/S/C meeting be adjourned.

CUT and RUN

By HANK

It sure looks like the shipping board will be looking bright enough until Christmas. In fact, the first words we heard from "Caricoa Red" Benway, the oldtimer, were: "Look at that board with all those ships. She sure looks like those old times during the war." Brother Benway confessed that he was anchoring in town for this Christmas...This week we saw Brother Roderick Smith, the Bosun, who presumably got off his home of a ship to spend Christmas, too, in New York. He was asking about his shipmate, Brother "Lucky Lee' Luciano . . . Brother Daniel "Blackie" Boyce, the oldtimer, said he sure could give a swell story of his experience aboard ship during the war if he could get the time and the patience. He read about John Bunker asking for Seafarer's to write up their experiences so he could write a book. Brother Boyce was on the famous SS Robin Moor. This week "Blackie" grabbed a Robin ship and whispered a promise to write from those foreign ports. Say, Blackie, our shipmate, Brother Al Baer, the cook, was in town a few weeks ago. Probably far out in the world now ...

This is a remark by a Seafarer which was overheard at the door: "I don't go to sea because I need the money. I just go to sea to wear out my old clothes." One man's opinion and a rare one, at that ... Attention Brother Malcolm M. Cross, aboard the SS Alcoa Pointer: You didn't send your home address in your request to have the LOG sent weekly to your family...To Brother George Meaney: The Merchant Marine Rest Center in Gladstone, New Jersey, just closed up. You must have heard about it some time ago since you said you had no place to go to rest up after your operation in the Marine hospital...Steward Fidel Lukban is in town right now... While his shipmate, Ozzie Okray, shipped out due to the high cost of eating and sleeping ashore and the low income dwindling from the last payoff, Brother Leo Siarkowski sadly confessed that he was getting out-no matter what ship comes up or whether it would be coastwise, to the island or to Europe ...

1 Here's a bit of a letter from Brother "Red" Braunstein from his ship in Oxelosund, Sweden: This is some place. No liquor unless you buy a meal and then only one shot every four hours (Say, Red, that sounds like the Marine hospital, not a Swedish bar). We will be back about December 20... Here are some oldtimers who may still be in town: J. W. Stycron, B. Rivera, P. Pringi, J. L. Nusser, H. R. Larson, A. Marco, W. Walden, S. Manning, Steward M. Galina, and W. Gonzales... In person or by telephone you Seafarers in New Orleans can get a library of books and magazines for your ship by contacting the American Merchant Marine Library Association, Foot of Poydras Street, Telephone: Magnolia 3849 . . .

From Brother William R. Bloom, the oldtimer, we have word he isn't landlubbing in Brooklyn as presumed previously. Brother Bloom has been anchored due to five months in the hospital and will soon be returning for more hospitalization. Good luck and fast recovery, Brother Bloom . . . Brothers, don't forget to remember this: Save those LOGS you bring aboard or the Patrolman brings aboard after you read them. Don't throw them away. When you hit those foreign ports bring a few LOGS to that other SIU ship in port, too. Save the other LOGS for the next foreign port you hit where there may be another SIU ship there. You'll be surprised how appreciating it will be to your other union brothers to get some copies of the latest LOGS-from you guys who save them for other SIU ships which may be away from the home ports for months-wishing to read up the latest news of our union.

THE MEMBERSHIP SPEAKS

Log-A-Rhythms Woes of a Wiper

Submitted by a Crewmember of the SS Del Sol

When fuel oil spills on deck, it's "Call the Wiperi" when the dyno engine is wreck,

it's "Call the Wiper!" when there's real work to do below.

or only boiler tubes to blow, whether hot or cold, it's "Call the 'Viper!"

The Oiler nowadays is a gag, he stuff his pockets full of rag; see him strut, hear him brag: "I gin't no Wiper."

he knows little and mostly less, oils by gosh and oils by guess and leaves things in an awful mess,

he says, "Call the Wiper!"

"Where's the Wiper?" hear the First yell, the Second wants him on the hot well, and the Third is always crying: "Hell, I need a Wiper." when it's real work, like swing

a sledge, the oiler gets sick and

begins to hedge and the First gets made and all on edge, say: "Go get the Wiper." they want things clean but no one helps, they think too much of their precious selves, and the filthiest guy is the first that yelps: "What's-a-matter with the Wiper."

Call it a joke, but brothers it's true; the black gang is a helpless crew and I don't know what they'd do without the Wiper.

Some of us will die early, and some will die late, and when our ghosts gather 'round Heaven's gate, we'll be pondering our sin and pondering our fate; St. Peter with the keys will then come out and with a heavy frown will look all about; I'm betting two-to-one first thing he'll shout will be "I want a Wiper."

Porter In Hospital

To the Editor:

from Mobile I was taken sick ful. and am now in the McGuire General Hospital, Richmond, Va. I would be very glad to get the LOG sent to me as I will be here about six weeks.

Merry Christmas and Happy New Year to all!

James R. Porter

SS THOMAS MacDONOUGH CREWMEN

Shown here are the members of the Deck Department aboard the Alcoa Liberty ship, which just completed a four months trip to Venezuela. From left to right, rear row: Jack Smith, AB; Johnnie Quimby, Bosun; Jerry Paraham, OS; Eden King, AB; Larry Lachapell, AB and Jimmy Dearing, AB. Kneeling are George Marshall, OS; Alvin Broussard, AB; William Robinson, AB, and Carl Amundsen, Deck Maintenance.

Delegate Thinks Engineers Toted Punchboard Licenses

To the Editor:

You men of the Black Gang who were not in the New York Hall when the jobs on this scow, the SS Lahaina Victory, Robin Line, were called off can consider yourselves lucky.

The Chief Engineer and the pany stooges, the former being amples: in addition an egotistical sort of that he loves himself best. I am of the personal opinion that these two so-called engineers won their licenses off a punch board or pulled them out of a couple of boxes of Crackerjacks. I have yet to see either one of these birds enter the engine room to repair something without having a manufacturer's

book in one hand and a wrench in the other. A crescent wrench at that, for it may have been too hard to guess the proper size of an open wrench.

STRICTLY BY THE BOOK

In case you men think I am just throwing the scuttlebutt First Engineer are really Com- your way, here are a few, ex-

The economizers started to fellow — that big word means leak. Down came the book. The books on the ice machine, generator, feed water pumps, condenser pumps, and on the fire and bilge pumps followed, along with books on regulators and governors. It's a good thing the shaft alley bearings aren't a little more complicated.

> Now to swing into the stooge part of the story.

When a man is afraid of losing his job through lack of ability he must rely on something else to try and make his position secure. The "something else" generally means that he becomes known as a stooge. The less the ability the bigger the

WHOSE OVERTIME

One day the 4-to-8 Fireman, having gone to the hospital, was unable to return on time for his watch due to the Company's launch service being inadequate. The Chief told him he'd have to pay another Fireman two hours overtime out of his own pocket for standing his watch as "we" can't afford it, "we" being the Company. The Delegate stopped that noise and "we" the Company okayed the overtime.

The Chief came down to: the Black Gang Delegate one day with the following proposition: The Captain wants the ship clean by the time we get into port and I believe the Oiler and Fireman in each foc'sle should do their own room. So see how much you can do tomorrow in one hour."

He seemed greatly annoyed when the Delegate told him that neither he nor anyone else in the department intended doing contract work then or at any other time.

One Sunday at sea, the Deck Maintenance had been painting the Old Man's room and in the evening wanted to take a shower. The light bulb was out and the shower head was bad in the other shower. So instead of having the Chief Electrician replace the light bulb, the Chief, as Company stooge took his own shower head and replaced the bad one, avoiding payment of a little overtime.

Most annoying news is that we hear the Chief Engineer once was an SIU member. If so, I suggest that we make him President of the 99-Year Club.

Black Gang Delegate SS Lahaina Victory

(Editor's note: The above letter does not refer to the trip of the Lahaina Victory which paid off October 6. That was a clean payoff. Apparently, the writer is referring to an earlier trip.)

Anti-Communist NMUer Lauds SIU Stand On Parley

To the Editor:

As an anti-communist NMU member I think your Union esteemed itself among members of the NMU who are opposed to communism mixed with trade unions, by your refusal to join the NMU in a wage parley.

Being a crewmember of the SS America and one who helped to build the NMU, I can truthfully say that ninety percent of the crew is against communism and is hoping to get rid of our communist officials even if we have to split our union.

CREW FED UP

The crew feels as I do that we don't want to go to next June under the present set-up.

At the present there is much talk aboard the America about the merits of your union-especially the lack of communists in your ranks.

(Name Withheld)

Neponsit Men Thank SIU Send Holiday Greetings

To the Editor:

On behalf of the SIU men in the Neponsit Marine Hospital, said: "Another job well done." we wish to thank the Union for the Christmas donation we just received. We are all very grateful for same and would like to take this opportunity of extending a hearty greeting to all our active brothers for a happy Christmas and prosperous New

To the Editor:

Having read the account in There is also much talk of the LOG, Nov. 28, of having members bolting the NMU and brought Isthmian, the mighty ocjoining the SIU because of this, topus of the Far East, into the fold of the SIU, I take great pleasure in giving a grand salute to Brothers Curly Rentz and Morris Weisberger for the tremendous effort they put into the drive, making it a real suc-

As President Roosevelt once

Now for the not-so-mighty Calmar line, a similar set-up. This outfit needs a good housecleaning. They have finks constantly waiting at the piers to board these ships at the last minute when the hall is closed.

GETTING THEIRS

Their officials disregard anything union at every opportunity. We must not forget their ships are fully loaded both ways and are not losing any money. The stores they attempt to put aboard would not properly feed the crew of a river tug. Believe me, this outfit sure whittles the stick.

I for one am strongly in fa-

vor of telling them once and for all. "Live up to the contract or suffer the consequences." They can do as the rest of the companies have done and still make money. They deserve the works; we'll settle for a better contract.

> George H. Seeberger Marymar

Attention Members

Each man who makes a donation to the LOG should receive a receipt in return. If the Union official to whom a contribution is given does not make out a receipt for the money, call this to the attention of the Secretary-Treasurer, J. P. Shuler, immediately.

Send the name of the official and the name of the port in which the occurance took place to the New York Hall, 51 Beaver Street, New York 4, N. Y.

Hails Canadian District's Display Of Brotherhood

A "Brotherhood of the Sea" demonstration really got fast action from our Canadian Brothers of the SIU. When the smoke cleared up, a genuine 19-caret drip was minus his book and a job, and a new Brother was made happy by his discovery that the SIU and SUP, a loyal bunch of Union men, could demonstrate what real unionism should be.

Arthur Boone, SIU Canadian District, was dispatched as Messman on the SS Samuel Colt, Ampac, an SUP ship. He was a permitman and a clean cut young kid, and he was assigned to the officers mess. He was a trifle slow, but a willing worker. There was no question but what he soon would learn the ropes and be a good Messman. Everybody aboard ship liked him.

FOUL TRICK

The drama comes. A new Chief Steward was also dispatched and the first thing he suggested had such an anti-Union smell, that only a man of his caliber would carry out such a trick. This Steward approached the Skipper on the quiet and told him that all the officers were complaining that the officers' Messman was too slow and that he was too dirty to be handling food. He prevailed upon the Skipper to sign Boone off on mutual agreement.

Brother Boone signed off, but, as he was paid up to midnight, he worked his supper hour.

The officers, hearing that he

Boone spoke up and stated that the officers didn't like his work.

This turned out to be a rank lie. No officer had entered any complaint against Brother Boone. It was only the cunning mind of a false Bellyrobber who devised the dirty untruth so he could get his own buddy aboard ship with him.

HATS OFF

But the plans of mice and men often go astray. A new Messman was dispatched from the Hall. On learning what the score was, the new man refused to sign on. To Brother Archie Chisholm, the new man dispatched, hats

Being Delegate for our department, I got busy and soon we had a petition rolling, for we had found out that not one single officer had signed a complaint against Brother Boone. Moreover, every officer aboard signed the petition denying any such assertion, and nearly every crewmember also signed.

We were just leaving New Westminister, British Columbia, for Port Alberni. Just as the ship pulled away from the dock Brother Alan MacDonald ar-

rived-too late. However, we arrived at Port Alberni the next Joyce and Jerry Proud. As soon as the gangplank was down, our Canadian officials showed what Union loyalty was.

STEADY AS SHE GOES

To MacDonald, Joyce and Proud we extend our sincere thanks for their quick cooperation in seeing justice done, and I think that the Chief Steward ing the sketch. should know our views.

As for Brother Boone, he is with us again, waiting in the officers mess.

To our hard-working Canadian Brothers we should take off our Brothers. hats. Moreover ,we should give them every moral and financial support possible. Yes, boys, "Keep her steady as she goes."

Edward G. Fries, SUP SS Samuel Colt, Ampac

FORT ERIE CREW CLEANS UP SHIP: DUKE FIXES MATE

To the Editor:

recently some of the brothers people willing to model. don't give a damn what they do do to the union's prestige.

The vessel was in pretty poor es of other Seafarers, he says. shape and it took a lot of labor to put her back on her keel. We went at it with a will because we wanted a decent place in which to work and live, and also we didn't want anyone to get the impression that the mess was quitting, asked him why. left by the previous crew was typical of the SIU.

> We straightened up the ship alright, but I also had to do a little work on the mate. This guy thought he could do as he pleased regardless of who was in charge of a particular job.

> Once, while drunk, he challenged me for my seatime. I guess he thought he was going to show up a greenhorn. I told him I had been going to sea long enough to qualify as a rank and file seaman and my union book was stamped "bosun'—nothing else mattered.

> I think I hurt his feelings, but what else can a guy do when someone like this tries to make things rugged?

Duke Himler SS Fort Erie

Khaki-Clad Brother Yearns for Deep Blue

To the Editor:

I want to thank all the Brothers and the Union for all they have done for me while I was an active member of the SIU. Right now I am in the army, as the address below indicates.

Enclosed find \$20 as a donation for the LOG. Sorry it can't be

Well, here's hoping I will be back to sea soon.

S/Sgt. Ben H. Miller, 6282803 B Troop, 8 Cav. APO 201, Unit 2

c/o PM, San Francisco, Cal. (Ed. Note: The LOG deeply appreciates Brother Miller's generous contribution, and hopes he will be able to shed the khaki very soon. Meanwhile, his old shipmates might keep him up to date on the score by dropping him a line now and then.)

Spurlock Looks At Life:

Leaves From A Seafarer's Sketch Book

From down Puerto Rico way, where the tropical clime seems to nourish morning and there stood Dave the talents of Seafarers, comes several samples of Brother Homer Spurlock's black and white sketches. Spurlock, for some reason, mirrors the grimmer aspects of life.

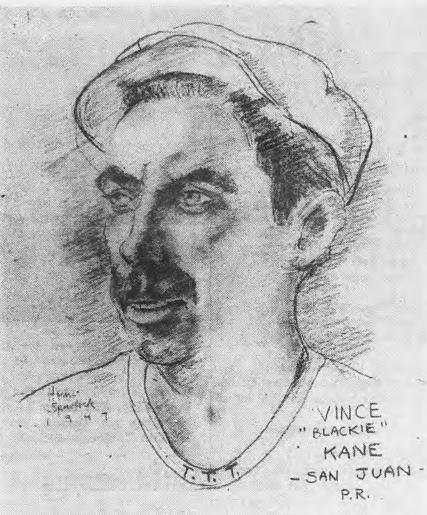

> Subject of Spurlock's portrait sketch at the right is Vincent (Blackie) Kane, a member of the SIU since 1942. He saw action in all theatres of operations during the recent war. Kane sails as an AB or Deck Maintenance, says the information accompany-

> At the present moment he is reported basking in the beneficial sunlight in San Juan, where he is renewing friendships with former shipmates and Union

> To Brother Spurlock and other seafarer-artists, the Island presents a multitude of subjects. The harbor in San Juan, Morro Castle and the lazy streets of the Island's cities make excellent material for the brush, pencil or

Brother Spurlock intends to to the ship or the damage they submit other copies of his work from time to time. Pencil sketch-

Here are some observations made during Spurlocks experiences in far-flung ports. But below shows another scene of life in the raw.

'COOKING' WITH ELBOW GREASE

Here's the indisputable proof that should put an end to a long-standing legend nourished by some wags who opined they'd "never see the day" Frenchy Michelet would strain his muscles. This exclusive LOG photo shows the New York Hall building superintendent precariously perched on the top rung of his well-used ladder as he recommissioned a broken door on the sixth deck the other day. One observer, after being revived with a bucket of ice water, admitted he had "seen everything."

The door, by the way, was working as smoothly as a 21-jeweled watch after the versatile Michelet left triumphantly to attend to another of his many chores.

Claims Bookmen 'Hog' Jobs Unnecessarily In San Juan

To the Editor:

letters, but, in an organization who knows, perhaps even an like ours, everybody has to take NMU stooge. And the bookman a hand and help build it up. has his stretch on the beach And as long as we can't do it any other way well (that is, some of us), we can do it by conclusion where my permit boy writing and getting a few things has to stay here for another off our chest.

Here in the San Juan Hall there are quite a few boys waitmitmen. But let me get to the have 10 kids apiece.

FOR EXAMPLE

Let's take the case of Book No. X-1 (let's keep the man's identity out of the LOG until NURSE TREATED his case is disposed of, since he is now being brought before a committee). There's a job on the To the Editor: board for a Messman and this bookman is registered as a Chief Cook. He is out of the Hall when LOG. This is the hospital here the Dispatcher calls the job. No bookman wants it and a permitman throws in for it.

this is going on, the Chief Cookie is watching from the outside. All of a sudden he decides not to ship Chief Cook, he wants to go Messman.

LO, THE POOR PERMIT

a regulation. But what I'm driv- the soap and towels. ing at is that the bookman needs a couple of bucks. So he goes hospital in Bordeaux, please around the Island and comes treat Dr. Ducassou to anything back to San Juan after he gets that is possible. He and the dear them. He decides he's made nurse who was in charge were enough to stay on the beach, so father and mother to me, and I he waits for the last minute to thank them with all my heart. pile off. The Steward has no

time to call the Hall because the ship has to sail, so the ship takes I'm not very good at writing any salt from the pier and gets, here.

> And that brings me to the week-maybe to go through the same story again.

Pre-Contract Isthmian Run Grim Reminder Of Unsavory Conditions Wiped Out By SIU

(Editor's note: The conditions described in the following letter occurred prior to the Union's negotiation of a full contract with the Isthmian Steamship Company. Now that the contract provisions are in full force on all Isthmian ships, conditions experienced by the writer of this letter are relics, which, like blue linen and maggoty chow, must take their place with other pre-Union abuses. Certainly, the letter points up the vital need for SIU contracts aboard all vessels.)

To the Editor:

I shall remember Sept. 12, 1947, for a long time. That was the day I got a job on the SS Beaver Victory of the Isthmian

The board in Baltimore said she was going to the West Coast and then to Europe. Being very embarrassed financially, I decided I had to ship out, even if it was an Isthmian scow, so I threw in for the job and got it.

The Dispatcher told me to go down to see a Captain Flynn at my room, threw some gear in a he gave me a story that should

guards at the gate, I finally gained entrance to his office. For a long time I filled out questionnaires which would have made the questions asked by a

Jean Men Ask Use Of Hospitals For Families

To the Editor:

We the crew of the SS Jean feel that Brother George Meaney's letter urging the treatment of seamen's families in marine hospitals should be run again and again in the LOG.

Brother Meaney points out (LOG, Oct. 31) that treatment is extended to the families of Coast Guard men and civil service employees and therefore should be extended to the wives and children of seamen. On this he's absolutely right.

There is an urgent need for the admittance of seamen's dependents into these hospitals line will have some effects in making this a reality.

The entire crew of the Jean hopes steps will be taken to open the doors of marine hospitals to our families.

> Entire crew SS Jean

Send In Letters On Your Voyages

Dear Brothers:

We've been getting plenty of letters from you about the stinkers and the bum ships.

But we feel sure some of the other Log readers would like to hear about the good times you have in strange ports, too. There are a lot of boys on the beach today who'd like to know what goes on in Rio or Copenhagen, Yokohamaa or Capetown.

So drop us a line and let us hear what you've been doing. Try to keep your letters to about 300 words or less, so we can print them all. Many thanks, Brothers.

The Editor

other side of Baltimore. From ter again. there, so help me, I had to go back across town to the Maryland Drydock where the Eager there-exhausted.

I had to sign on at the gangguard said.

Locust Point, so I headed for Beaver was in drydock for and Molotov." After getting by the Isthmian the bay when they tried to start directs." up a boiler without any water in it. You figure out the rest. She laid up at Pratt Street four months and in the shipyard another month getting a new boiler.

I headed for the midship house to look for an empty foc'sle, and found them all empty. No crew yet. I found the Chief Mate and asked "When do we eat?" He said, "No food." I said, "Money

Notice To All SIU Members -

The SEAFARERS LOG as the official publication of the Sea farers International Union is available to all members who wish to have it sent to their home free of charge for the enjoyment of their families and themselves when ashore. If you desire to have the LOG sent to you each week address cards are on hand at every SIU branch for this purpose.

However, for those who are at sea or at a distance from a Sic hall, the LOG reproduces below the form used to request the LOG. which you can fill out, detach and send to: SEAFARERS LOG, 51 Beaver Street, New York 4, N.Y.

PLEASE PRINT INFORMATION

To the Editor:

I would like the SEAFARERS LOG mailed to the address below:

Television 'n Everything For Seafarers Can Be Enjoyed In The New York Hall

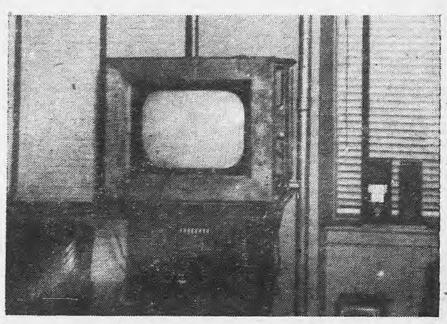

SIU Hells are homes away from home for the members of the Secfarers International Union. Picture above shows the Christmas wreath donated by Brother Jerry Markantonatus hanging in the recreation room of the New York Hall, and the shot at the left is of men relaxing and enjoying the many facilities to be found on the third deck.

Fights, wrestling matches, baseball and football games—all for the asking. SIU members have front row seats to all events without shelling out a red cent. They don't even have to guzzle beer in a ginmill when they want entertainment. All they have to do is visit the New York Hall and park themselves in front of the television screen.

A new addition to the many entertainment features is the television set. The Serfarers is one of the few unions to have a television set in the Hall, where it can be enjoyed by

For Brothers who like more active sports, this skill machine will give them a good run. Out of the picture on the left is the Coca-Cola machine which is kept in constant operation by the thirsty Seafarers.

"Ask her if she's got a friend for me." The public telephone on the recreation deck gets a good play from SIU men. They transact business, make dates, and call home when they get in from a long trip.
