SEPTEMBER 2016 VOLUME 78 NO. 9

SEAFARERS LOG

OFFICIAL PUBLICATION OF THE SEAFARERS INTERNATIONAL UNION · ATLANTIC, GULF, LAKES AND INLAND WATERS

The union recently welcomed two new Jones Act tankers into its contracted fleet, and additional ones are on the way along with even more tonnage. In mid-August, Seafarers and SIU officials celebrated the christening of the Crowley tanker West Virginia at Philly Shipyard. The vessel is pictured directly above, while the photo inset shows Anne Swearingen breaking the ceremonial bottle near the bow. Meanwhile, in late July, the tanker Garden State (photo at immediate right) was delivered by General Dynamics NASSCO to the parent company of SIU-contracted Seabulk Tankers. Two more NASSCO tankers – the Constitution and the Bay State – were scheduled for christenings in late August and mid-September, respectively. The shipyard also recently conducted a keel-laying ceremony for the USNS Williams (an artist's rendering of the ship, known as an expeditionary sea base, is below at right). Previously, the yard announced winning a Navy contract for the design and construction of the next generation of fleet oilers (artist's rendering appears directly below). Page 3.

President's Report

Bipartisan Backing of Jones Act

Considering both the importance of the Jones Act to SIU members and the fact that the nation's freight cabotage law regularly comes under attack, it was refreshing recently to see a bipartisan, proactive outreach standing up for this vital regulation.

In mid-August, four members of the U.S. House of Representatives wrote to the newly formed Congressional Task Force on Economic

Michael Sacco

Growth in Puerto Rico. The letter was signed by Congressmen Duncan Hunter (R-California), chairman of the Subcommittee on Coast Guard and Maritime Transportation; John Garamendi (D-California), ranking member on the subcommittee; Randy Forbes (R-Virginia), chairman of the Subcommittee on Seapower and Projection Forces; and Joe Courtney (D-Connecticut), ranking member on the subcom-

The letter's details are important, but the short version is that the congressmen urged the task force not to waste time scrutinizing the Jones Act's effect on Puerto Rico – not because it isn't crucial, but because it's already been done. And the findings are that the law is very beneficial to the commonwealth.

In part, the four representatives wrote, "Based on our review over many years of issues related to the U.S. maritime industry, national sealift needs and port security initiatives, we do not believe a review of the Jones Act by the task force, on which neither our committees nor our subcommittees are represented, is necessary.

They continued by pointing out that the Jones Act "protects good U.S. jobs, provides jobs and industrial skills needed to support U.S. defense sealift, and provides a network of U.S. mariners who are on the water and provide a knowledgeable first line of defense in our efforts to keep our trade ports and harbors secure.

Then, they explained in detail (if questions arise about the Jones Act, and since misinformation about the law is being disseminated) how Puerto Rico benefits from it. They referred to a non-partisan, Government Accountability Office (GAO) study which found that the domestic maritime industry provides "reliable, on-time service" and "just in time'

'Many Puerto Rican importers rely on this 'prompt and regular shipping' to avoid warehousing and inventory costs, which are particularly high in Puerto Rico, according to the GAO," the letter stated. "The agency further opined that changes to the Jones Act in Puerto Rico could undermine the crucial northbound service from Puerto Rico to the mainland. And, of course, the last thing Puerto Rico needs now is the disruption of its shipping or the outsourcing of its shipping jobs to other nations.'

Of particular note, they pointed out, is the fact that shipping rates to Puerto Rico on Jones Act vessels from the mainland are the lowest in the region. If any Jones Act critics are reading this column, let that data sink in for a minute. In fact, shipping rates from the U.S. to Puerto Rico on Jones Act ships are the lowest in the Caribbean, they said, comparing them to those of foreign-flag vessels.

The congressmen gave other sound reasons for a hands-off approach. They mentioned that the GAO found changes to the Jones Act in Puerto Rico could undermine national security. They pointed out that the current, massive, private-sector investments related to Jones Act shipping benefit

I applaud this proactive approach and its persuasiveness. In the SIU, we know the Jones Act helps maintain our jobs and those of other mariners. We know it's vital to maintaining a domestic shipbuilding capability, and also critical for national and homeland security. And we know that it helps contribute billions of dollars each year to the U.S. economy.

Further, we understand that it isn't protectionist. It is sound policy, which explains why dozens of other nations have their own versions of

Not everyone on Capitol Hill has that same understanding, which is why the bipartisan letter is so timely and important.

Maritime Matriarch Bentley Dies at 92

Though short in physical stature, few if any people had a larger or longer-lasting presence than Helen Delich Bentley when it came to promoting the American maritime industry and in particular the Port of Baltimore.

Bentley died Aug. 6 at age 92, at her home in Timonium, Maryland. She had been diagnosed with brain cancer.

'There will never be another one like her," stated SIU President Michael Sacco. "She was a fighter for what she believed in – and she believed in our industry and the men and women who work in it. No one could top her dedication and devotion to the U.S.-flag Merchant Marine. All of us will miss her tremendously."

Bentley was born in Nevada in 1923 to Serbian-American parents. After graduating from the University of Missouri's School of Journalism in 1944, she was hired by the Baltimore Sun newspaper to cover the maritime beat. She started writing a column, "Around the Waterfront," which was syndicated in a number of other papers. That column eventually evolved to include a TV program, "The Port That Built a City," in 1950. She spent 24 years as a mari-

time reporter and editor before being appointed by President Nixon to serve as the Chairman of the Federal Maritime Commission (FMC) in 1969. She was the first female chairman of the FMC, which she led for six years before returning to the *Baltimore* Sun. After nine years, she ran for office and was elected as a Republican to represent the Second

Bentley is pictured with the late SIU President Paul Hall in this undated snapshot.

District of Maryland. From 1985 to 1995, she was a strong ally of maritime in Congress, aggressively pursuing mariners' rights and labor issues on Capitol Hill.

Former Representative Duncan L. Hunter, who held office from 1981-2009 and is the father of current Representative Duncan D. Hunter, once said Bentley "made her presence felt in every room she ever entered.'

Sen. Barbara A. Mikulski, dean of Maryland's congressional delegation, was a longtime friend of Bentley.

"She fought for jobs and she fought for the little people and she always put people and their opportunity to earn a living over petty partisan politics," said Mikulski. "Helen was a fighter and she believed in constituent service and she took on bureaucracy and foreign governments to get jobs in our community.'

After an unsuccessful bid for governor, Bentley founded a business consulting firm which advised and lobbied for clients on behalf of international trade, U.S. shipping and U.S. manufacturing. Through her tireless advocacy for the Port of Baltimore,

SIU Vessel Hosts MSC Change of Command

Mewbourne Succeeds Shannon at Vital U.S. Maritime Agency

The USNS Lewis B. Puller, crewed by members of the SIU Government Services Division, was scheduled to host the change-of-command ceremony for the U.S. Military Sealift Command (MSC) on Aug. 25 in Norfolk, Virginia (too late for inclusion in this edition).

Rear Adm. Dee Mewbourne is succeeding Rear Adm. T.K. Shannon as MSC's commanding officer. Mewbourne most recently has served as the Navy's director of maritime operations, U.S. Fleet Forces Command. Shannon is retiring after a long career capped off by three years at MSC's helm.

Mewbourne grew up in Ormond Beach, Florida, and gradu-

Rear Adm. T.K. Shannon

ated in 1982 from the United States Naval Academy. He was designated a naval flight officer in December 1983 and later earned a master's degree in business administration from Colorado State University. He is an honor graduate of the United States Naval Test Pilot School and completed the Navy's Nuclear Power Program, Air Command and Staff College (ACSC), Joint Forces Staff College and numerous executive educational courses.

Mewbourne's command assignments include Electronic Attack Squadron (VAQ) 139 aboard the USS Abraham Lincoln, USS Nashville, USS Dwight D. Eisenhower, USS Enterprise, USS Harry S. Truman, Naval Service Training Command (NSTC), Carrier Strike Group 3 and Carrier Strike Group 11.

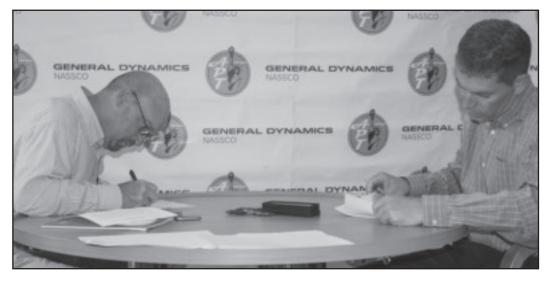

He has completed numerous sea-based flying assignments and also served as the executive officer of the USS George Washington. Mewbourne has been a flight instructor, military assistant for the secretary and deputy secretary of the Defense Department, and chief of staff for Navy Cyber Forces.

Additionally, Mewbourne has deployed supporting Operations El Dorado Canyon, Provide Comfort, Deny Flight, Southern Watch, Iraqi Freedom, New Dawn, Enduring Freedom, and

Rear Adm. Dee Mewbourne

the 2006 Lebanon War. He has accumulated over 3,600 total flight hours in over 50 various aircraft and over 1,000 arrested landings on 14 carrier decks. Mewbourne's awards and decorations include the Defense Superior Service Medal, Legion of Merit (six awards), Meritorious Service Medal (five awards), Air Medal with Combat V, Strike/ Flight Air Medal (two awards), and various other personal and unit awards and campaign medals. While at the Naval Academy, he received the Carl Vinson Leadership Award.

Dave Farrell, project manager for American Petroleum Tankers (left in photo above), and Matt Luxton, general counsel for General Dynamics NASSCO, make the delivery of the *Garden State* official. In the photo at right, three Medal of Honor recipients, including the ship's namesake (center), are pictured at the keel-laying ceremony for the *USNS Williams*: Col. Robert Modrzejewski, USMC (Ret); CWO-04 Hershel "Woody" Williams, USMC (Ret); and Senior Chief Special Warfare Operator (SEAL) Edward Byers, Jr. (Photos courtesy General Dynamics NASSCO)

NASSCO News Means New Jobs for Seafarers

Union Shipyard Delivers Tanker, Prepares to Host Christenings

The General Dynamics NASSCO shipyard has been bustling with activity, and most of the news emanating from the San Diego facility affects SIU members.

At press time, the union yard was set to host a christening ceremony for the ECO

Slated for christening in mid-September, the Jones Act tanker *Bay State* will be crewed by SIU members. (Photo courtesy General Dynamics NASSCO)

tanker *Constitution*, which was built for American Petroleum Tankers (APT), parent company of SIU-contracted Seabulk Tankers. That event was slated for August 27.

Also on the calendar is the Sept. 17 christening of the *Bay State*, which is part of the same class as the *Constitution*. The *Bay State* is the fourth of five LNG-conversion-ready Jones Act tankers being built for APT.

The third ship in the ECO class, the *Garden State*, was delivered in late July. Each of the 50,000 dwt tankers has a 330,000-barrel cargo capacity and is 610 feet long.

Those aren't the only recent bulletins from NASSCO. On Aug. 2, the yard hosted a keel-laying ceremony for the future *USNS Hershel "Woody" Williams*, the fourth ship of the Montford Point class. Known as an expeditionary sea base, the ship is being named for the last surviving Medal of Honor recipient from the Battle of Iwo Jima. The former chief warrant officer attended the ceremony.

Finally, earlier this summer NASSCO announced that it has been awarded a U.S. Navy contract for the design and construction of the next generation of fleet oilers, signaling job opportunities for members

of the SIU Government Services Division. The contract calls for the construction of six ships (the John Lewis class).

The flurry of stories from NASSCO (whose president, Fred Harris, sailed as a union mariner) was noteworthy but not necessarily unusual. The *Garden State* milestone, for example, marked the seventh vessel delivery in a little more than one year.

"In the past year, NASSCO shipbuilders have delivered seven ships – or the equivalent to 100,000 tons' worth of steel," said Kevin Graney, vice president and general manager for General Dynamics NASSCO. "Among the seven vessels delivered, three have been lead ships: the world's first containership powered by liquefied natural gas, the U.S. Navy's first expeditionary sea base and the nation's most fuel efficient product tanker. We are proud of the diverse design and build portfolio we have delivered during the course of this year."

All of those vessels carry or will carry SIU crews, including the Tote-operated *Isla Bella* and *Perla Del Caribe*. Those LNG-powered containerships (each 764 feet long) sail in the Jones Act trade between Jackson-ville, Florida, and Puerto Rico.

During the ceremony for the *Williams*, the vessel's namesake – a retired Marine – addressed the crowd. He and his two daughters welded their initials onto the keel of the ship.

Many dignitaries and fellow Medal of Honor recipients attended the ceremony, including retired Marine Corps Col. Robert Modrzejewski, a Medal of Honor recipient recognized for his conspicuous gallantry during the Vietnam War; Senior Chief Special Warfare Operator (SEAL) Edward Byers, Jr., a Medal of Honor recipient recognized for his efforts during a hostage rescue in Afghanistan; and Brigadier Gen. William M. Jurney, Commanding General, Marine Corps Recruit Depot, San Diego.

"The story of Hershel 'Woody' Williams is remarkable. It's a story of valiant devotion, extraordinary courage and American heroism," said Graney. "We have the distinct honor of constructing a ship that will reflect the strength and fearlessness of its namesake and will provide global, advanced capabilities for future generations of Marines and sailors to come."

The 784-foot-long ship will serve as a flexible platform to support a variety of missions, including air mine countermeasures, counter-piracy operations, maritime security and humanitarian missions. It will provide for accommodations for up to 250 personnel and will feature a 52,000-square-foot flight deck, fuel and equipment storage, and will also support MH-53 and MH-60 helicopters with an option to support MV-22 tilt-rotor aircraft. The ship is expected to be completed in the first quarter of 2018.

New Jones Act Tanker Christened in Philly Shipyard

The SIU-contracted Jones Act fleet made a noteworthy addition Aug. 16 when the union-built tanker *West Virginia* was christened at Philly Shipyard. SIU crew members and officials (Executive Vice President Augie Tellez, Vice President Atlantic Coast Joseph Soresi and Port Agent Joe Baselice) attended the ceremony.

Like its sister ships *Louisiana*, *Ohio* and *Texas*, the *West Virginia* can be converted for propulsion by liquefied natural gas (LNG).

Anne Swearingen, wife of John Swearingen, senior vice president, Marathon Petroleum Corporation, performed the time-honored tradition of christening the vessel by breaking a ceremonial bottle of champagne across the *West Virginia's* hull. Marathon Petroleum will utilize the tanker under a long-term charter

"Today represents a banner day for our company, Marathon Petroleum and Philly Shipyard as we welcome the *West Virginia* to our tanker fleet," said Tom Crowley, chairman and CEO of Crowley Maritime. "The christening of this vessel, along with its sister ships, represents the best of the U.S. maritime industry – from the men and women who built her to the men and women who will operate her with great safety, integrity and high performance."

The new tankers are based on a proven Hyundai Mipo Dockyards (HMD) design that incorporates numerous fuel efficiency features, flexible cargo capability and the latest regulatory requirements. At 600 feet long, the *West Virginia* is 50,000 deadweight tons

(dwt) and capable of carrying 330,000 barrels of product. The tanker can transport crude oil or refined petroleum products, as well as various chemical cargoes.

When the ship was delivered the week before the christening, Crowley's Rob Grune,

Crew members along with company and shipyard officials gather on stage during the pier-side ceremony.

senior vice president and general manager, petroleum services, stated, "The delivery of the *West Virginia* represents our total commitment at Crowley to providing the best performance for our customers with efficiency and innovative solutions. The completion of *West Virginia* and its sister ships demonstrates our belief in the Jones Act trade, and our commitment to supporting our economy through U.S. shipbuilding and crewing. We congratulate shipbuilding shippard for reaching this milestone, as well as the dedicated, hard-working men and women who build and crew these ships."

Said Philly Shipyard's President and ČEO Steinar Nerbovik, "Today's delivery marks the successful completion of a four-tanker series for Crowley. We have appreciated a strong partnership with Crowley, stemming from the previous two Crowley tankers delivered in both 2012 and 2013, and today are proud to add these four safe and quality vessels to its growing fleet. On behalf of the men and women at the shipyard, we send our well wishes to the dedicated crew that will operate the *West Virginia*."

The ship's first SIU crew included Recertified Bosun Hanapiah Ismail, ABs Gil Acapulco, Mapalana Gamage, Juberto Perez,

Investigators Recover Recorder from Cargo Ship El Faro

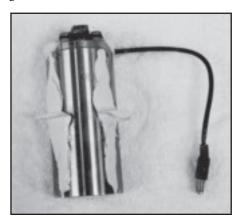

The voyage data recorder (VDR) from the *El Faro*, the U.S.-flagged cargo ship that sank during Hurricane Joaquin in Oct. 2015 and claimed the lives of 33 mariners, including 17 SIU members, was successfully recovered from the ocean floor Aug. 8. The recovery of the capsule – facilitated by the *USNS Apache*, which is crewed by members of the SIU Government Services Division – ends a 10-monthlong effort to retrieve the device, which was designed to record navigational data and communications between crew members on the ship's bridge.

While the plan for what happens next is clear, the timetable is indefinite.

According to the National Transportation Safety Board (NTSB), examination of the data that may be contained on the recorder began Aug. 15 at the agency's lab in Washington, D.C.

In a news release, the agency explained, "The examination, called an audition, will happen in two rounds. The initial round only includes the NTSB Office of Marine Safety acting director, the NTSB research and engineering director, the NTSB's investigator in charge, and the U.S. Coast Guard's chief of investigations and casualty analysis. This audition is of the raw audio without any clean up or filtering and helps to determine the future scope of work.

"From the first audition, the NTSB research and engineering team will produce a general characterization of the data that details

Within this protective inner capsule is the memory chip that stores data from the voyage recorder.

National Transportation Safety Board personnel (photo at left) monitor video from the remotely operated vehicle CURV-21 during the recovery of *El Faro's* voyage data recorder capsule. In the photo above, an NTSB engineer removes material from the inner capsule assembly. (NTSB Courtesy Photos by James Anderson)

the number of hours, quality of data, quality of audio, presence of GPS, radar, and any other data captured," the statement continued.

The NTSB's next step will be to convene the VDR investigative group. The agency reported that this group may consist of representatives from the NTSB, Coast Guard, American Bureau of Shipping and Tote Services (operator of the *El Faro*). These parties are requested to participate as subject matter experts because they can provide expertise in analyzing the VDR information and creating a transcript.

"The recovery of the recorder has the potential to give our investigators greater insight into the incredible challenges that the *El Faro* crew faced," said NTSB Chairman Christopher A. Hart, "but it's just one component of a very complex investigation. There is still a great deal of work to be done in order to understand how the many factors converged that led to the sinking and the tragic loss of 33 lives. I want to thank the dedicated professionals in the many organizations — especially the U.S. Navy, the Coast Guard, Woods Hole Oceanographic Institute, the National Science Foundation and the University of Rhode Island — who worked with NTSB investigators and

support staff over three missions in 10 months to make this successful recovery possible."

Upon recovery, the VDR was placed in fresh water to help prevent corrosion of the electronic components. Coast Guard and NTSB personnel decided to disassemble and visually examine the VDR while at sea to gain a better understanding of the condition of the memory unit and to identify what steps would be needed to recover the data. All of the components were transported to the nation's capital on Aug. 12.

The *Apache*, a fleet ocean tug, departed Virginia Beach, Virginia, on Aug. 5 with personnel from the NTSB, Coast Guard, Navy and Phoenix International aboard. After arriving at the accident location, technicians maneuvered CURV-21, a deep ocean remotely operated underwater vehicle, down about 15,000 feet to the sea floor where the wreckage of *El Faro* rests. Specialized tools were used to remove the VDR capsule from the wrecked mast to which it was attached.

It is not yet known how long it may take to review the data and audio information that may be captured on *El Faro*'s VDR. While the minimum design requirement for VDRs of this type is for 12 hours of recording, it may contain additional information – the review of which is a thorough and time consuming undertaking, according to the NTSB.

No further missions to the accident site are planned unless warranted as the investigation continues

The VDR group will work together to create a transcript of any audio recovered from the VDR. The transcript will be used to inform the future activities related to the *El Faro* investigation, and any part of the transcript that is considered relevant to the investigation will be released in the public docket. There is no current timeline for the release of the public docket.

The NTSB has said that, by law, they cannot publicly release the audio recordings at any time. According to U.S. Code Title 49 § 1154, "[The NTSB] may not disclose publicly any part of a surface vehicle voice or video recorder recording...."

Some of the families of those who lost their lives are pushing to hear their last words, and are asking for anyone who agrees with them to write letters to their senators, petitioning for the release of the bridge audio.

Crowley LNG Agreement Means Increased Cargo For SIU-Crewed Vessels

An SIU-contracted company continues to make its mark in the domestic as well as international maritime trades.

Crowley Maritime Corporation's liquefied natural gas (LNG) services group has been awarded a multi-year contract to supply containerized LNG from the U.S. mainland to Puerto Rico. Molinos de Puerto Rico, the Caribbean arm of Ardent Mills LLC, will be on the receiving end of the fuel. It is the territory's leading supplier of flour as well as wheat, corn and rice-based food ingredients.

According to press release issued Aug. 4 by Crowley, the contract, which was executed through its subsidiary Carib Energy (USA) LLC, includes both the supply and transportation of LNG. The pact will help Molinos expand environmental sustainability efforts and better manage any weather-related power challenges that can affect the island of Puerto Rico.

The transportation of LNG from liquefaction facilities on the mainland to Molinos' plant will be managed by Crowley's domestic logistics team, which will coordinate the overthe-road transport of 40-foot ISO containers, authorized by the U.S. Department of Transportation to carry approximately 10,000 gallons of LNG, to the company's Jacksonville, Florida, shipping terminal.

Once in Jacksonville, the containers will be loaded onto SIU-crewed, Crowley-owned vessels departing for Puerto Rico. Upon arrival on the island, Crowley's Puerto Ricobased logistics team will deliver the LNG to the customer's facility. There, the LNG will be re-gasified and used for power consumption

LNG is a safe, environmentally-friendly fuel that is simply natural gas in a liquid state. Natural gas is the cleanest burning fossil fuel and is being used throughout the world to reduce carbon dioxide emissions. Compared to coal and other fuel oils, natural gas produces far fewer carbon dioxide and sulfur emissions. It is also widely abundant and cost effective.

"Carib Energy is extremely pleased to be a vital supplier and logistics provider of LNG to Crowley's longtime liner services customer, Molinos de Puerto Rico," said Greg Buffington, Crowley vice president. "Our teams have been working side by side with Molinos, the Caribbean arm of Ardent Mills, assisting with the engineering to utilize the natural gas and also the logistics necessary to accommodate LNG delivery to the Molinos plant. We want to thank Ardent Mills and Molinos for having confidence in Crowley and Carib Energy to allow us to play a pivotal role in supplying a cost-efficient, safe, reliable and environmentally friendly natural gas fuel source for their operations."

Jon Stuewe, Molinos de Puerto Rico president, stated: "We appreciate the nearly two years of thoughtful care and planning that have gone into this effort. We also appreciate the additional capabilities and assured ingredient supply made possible by this important alternate fuel source. We are committed to

operating across our supply chain with innovative ideas that also deliver a more positive environmental impact."

Crowley's Carib Energy was the first company to receive a small scale, 25-year, LNG export license from the U.S. Department of Energy for LNG transportation from the U.S. into Free Trade Agreement (FTA) countries. Shortly thereafter, a Crowley LNG services group was formed to begin offering supply, transportation and distribution of LNG services via 10,000-gallon ISO tanks. Additionally, the company was granted the first small-scale license for supply, transportation and distribution of LNG into Non-Free Trade Agreement (NTFA) countries in the Caribbean, Central and South America.

Molinos de Puerto Rico joins several other customers receiving containerized LNG sup-

ply in Puerto Rico, where a virtual natural gas pipeline has been established by Crowley from the U.S. Crowley is already supplying LNG to Coca-Cola Puerto Rico Bottlers in Cayey and Club Caribe in Cidra, both wholly owned subsidiaries of CC1 Companies, and to a major pharmaceutical company on the island. Additional industrial companies on the island are considering making the switch to LNG.

Crowley has served the Puerto Rico market from the 75-acre Isla Grande terminal since 1954, longer than any other Jones Act carrier in the trade. The company, with over 250 Puerto Rico employees, is also the number one ocean carrier between the island commonwealth and the U.S. mainland with more weekly sailings and more cargo carried annually than any other shipping line.

As part of Crowley's new contract, forty-foot ISO containers like the one shown above (authorized by the U.S. Department of Transportation) will transport 10,000 gallons of LNG from various U.S. mainland liquefaction facilities to the company's shipping terminal in Jacksonville, Fla. (Photo Courtesy of Crowley Maritime Corp)

Union Provides International Shipholding Corporation Update

Seafarers-contracted International Shipholding Corporation (ISHC) and some of its subsidiaries have filed for Chapter 11 bankruptcy in New York. As noted in a recent letter from the union to SIU members aboard ISHC's vessels operated by Waterman, Central Gulf and Sulphur Carriers, respectively, "We are in close contact with the company every day and will take every reasonable step to help them move forward with a successful restructuring that maintains SIU jobs."

The letter from SIU Vice President Contracts George Tricker also reads in part, "While there is nothing desirable about any form of bankruptcy, a Chapter 11 procedure very clearly means the company is trying to make a go of it, and we know from U.S. maritime history that such reorganizations have worked. It may initially sound strange under the circumstances, but for now it is business as usual aboard the ships... On that note, it is critical that you remain aboard the company's vessels and continue to handle your respective jobs with ongoing professionalism. I am cautiously optimistic about the company's future, but their ability to reorganize and move forward depends in large part on reliable shipboard manpower.'

In a letter to its customers, ISHC

noted, "The company's Chapter 11 filing does not mean that our company is going out of business. Rather, this filing is a critical step on our company's pathtowards an orderly financial restructuring with our lenders and shareholders. Throughout the Chapter 11 process, our company will continue conducting normal business operations. On behalf of all of our employees operating today in the United States and abroad, we also want to take this opportunity to thank you for staying the course and believing in our company."

ISHC also posted a news release in which Erik L. Johnsen, president and CEO, commented, "Today, we took a critical step toward right-sizing the company's balance sheet. While the company is facing challenges with its debt and capital structure, we believe our core business segments are performing satisfactorily. During the Chapter 11 process we look forward to continuing to provide our customers the same high quality, reliable shipping services they've come to consistently expect from us."

There are several related links on the company's home page: http://www.int-ship.com/

Information also is linked in an Aug. 5 news post on the SIU website, and updates will be posted as warranted.

SIU Mourns Recent Death Of Congressman LaTourette

The SIU joined with all of American maritime labor in mourning the passing of retired Congressman Steve LaTourette, 62, who lost his battle with pancreatic cancer on Aug. 3.

The 18-year representative from northeastern Ohio was a solid supporter of the Jones Act, Maritime Security Program and cargo preference. He was a leading voice within the House Appropriations Committee on behalf of maritime labor.

First elected in 1994, the Republican was respected by members from both political parties because of his ability to work with others for the causes in which he believed.

During his tenure, he served as cochair of the Republican Labor Caucus and later as chair of the Republican Main Street Partnership. LaTourette was one of the strongest supporters for working families in his party. During the financial crisis of 2008-09, he supported legislation extending unemployment benefits. He also fought for health and social services

The Cleveland Plain Dealer quoted LaTourette when he announced his retirement from Congress in 2012:

Steve LaTourette

"For a long time now, words like compromise have been considered to be dirty words. I've always believed ... that the art of being a legislator is fining common ground."

The membership and officials of the SIU will miss LaTourette's leadership and concern for all working men and women.

Rank-and-File Members Comprise Group

Credentials Committee Reviews Nomination Petitions for Election

The credentials committee, composed of six rankand-file SIU members, has reviewed all nominating petitions of Seafarers seeking office in the 2016 district-wide elections in the union's Atlantic, Gulf, Lakes and Inland Waters components.

After meeting last month and studying the nomination applications to ensure each candidate had complied with the criteria spelled out in the SIU's constitution, the credentials committee issued its report, which will be presented to the membership for its approval at the September meetings.

Twenty-six candidates for 25 ballot positions qualified to run in the election, which takes place Nov. 1 through Dec. 31, the committee reported.

Members of the committee were elected during the August membership meeting conducted at headquarters-port of Piney Point on Aug. 8, 2016. Voted to the committee by their fellow Seafarers were Scott Smith, Tim Pillsworth, Adrian Jones, Darryl Jackson, Steven Hoskins and Jayne Peterson. Peterson was selected by the committee to serve as chairperson.

During the meeting on Aug. 8, Seafarers had to present their union books in order to be nominated to the committee. After the voting took place, results immediately were made known.

The union constitution establishes guidelines for the credentials committee in Article XIII, Section 2. According to those rules, the committee must be elected at the port where headquarters is located (Piney Point).

The credentials committee must consist of six full-book members, including two members from each of the three shipboard departments: deck, engine and steward.

Additionally, no elected official or candidate for union office is permitted to serve on the committee.

Members seeking the position of president, executive vice president, secretary-treasurer, vice president, assistant vice president or one of 10 port agent posts had to submit nominating papers between July 15 and Aug. 15.

See page 6 for the entire report

The SIU-crewed *West Virginia*, built in a union yard, can be converted for LNG propulsion.

SIU Membership Welcomes Crowley Vessel West Virginia

Continued from Page 3

Robert Surette and Wilson Trayvilla, QEP Scott Fuller, Oiler Kyle Miller, OMU Terrance Jackson, Recertified Steward Milton Yournett, Cook/Baker Shantay Joquin and SA Marvin Davis.

The Jones Act has helped boost America's economic, national and homeland security since it was enacted in 1920 as part of the Merchant Marine Act. The nation's freight cabotage law requires that cargo moving between domestic ports is carried on vessels that are crewed, flagged, built and owned American.

According to a detailed study by PricewaterhouseCoopers, the Jones Act helps maintain nearly 500,000 American jobs while contributing billions of dollars each year to the economy. With that in mind, perhaps it is not surprising that the law always has enjoyed strong bipartisan support and the backing of every administration.

Moreover, high-ranking U.S. military officials in recent years have been outspoken proponents of the Jones Act. The law helps maintain a pool of well-trained, reliable, U.S. citizen mariners and also is vital to sustaining the nation's shipbuilding capability.

Six rank-and-file union members (photo above) last month reviewed all nominating petitions of Seafarers seeking office in the 2016 district-wide elections. Seated from left are Darryl Jackson, Adrian Jones, Tim Pillsworth and Scott Smith. Standing are Steven Hoskins (left) and Jayne Peterson.

Credentials Approved for Candidates to 25 Union Offices

REPORT OF CREDENTIALS COMMITTEE ON CANDIDATES FOR 2016 ELECTION OF OFFICERS FOR TERM 2017-2020 SEAFARERS INTERNATIONAL UNION OF NORTH AMERICA-ATLANTIC, GULF, LAKES AND INLAND WATERS

We, the undersigned members of the Credentials Committee, were duly elected at the August Membership meeting held in Headquarters-Port of Piney Point on August 8, 2016. We have examined the credentials of candidates for elective office or job in the Seafarers International Union of North America-Atlantic, Gulf, Lakes and Inland Waters for the years 2017-2020, in accordance with Article XI, Section 1, and submit the following

Your Committee qualified or disqualified those members who submitted for office based upon the Union Constitution, particularly those provisions contained in Articles XII and XIII. The applicable constitutional provisions are as follows:

ARTICLE XII

Qualifications for Officers, Assistant Vice-Presidents, Port Agents, and Other Elective Jobs

Section 1. Any member of the Union is eligible to be a candidate for, and hold, any office or the job of Assistant Vice-President, or Port Agent provided:

(a) He has at least three (3) years of seatime in an unlicensed capacity aboard an American-flag merchant vessel or vessels. In computing time, time spent in the employ of the Union, its subsidiaries and its affiliates, or in any employment at the Union's direction, shall count the same as seatime. Union records, Welfare Plan records and/or company records can be used to deter-

(b) He has been a full book member in continuous good standing in the Union for at least three (3) years immediately prior to his nomination; and

(c) He has at least one hundred (100) days of seatime, in an unlicensed capacity, aboard an American-flag vessel or vessels covered by contract with this Union or one hundred (100) days of employment with, or in any office or job of, the Union, its subsidiaries and its affiliates, or in any employment at the Union's direction or a combination of these, between January 1 and the time of nomination in the election year, except if such seatime is wholly aboard such merchant vessels operating solely upon the Great Lakes or, if such seatime is wholly aboard tugboats, towboats or dredges and contractual employment thereon is for fixed days with equal amount of days off, he shall have at least sixty-five (65) days of such seatime instead of the foregoing one hundred (100) days; and

(d) He is a citizen of the United States of America; and

(e) He is not disqualified by law. He is not receiving a pension from this Union's Pension Fund, if any, or from a Union-Management Fund, to which Fund this Union is a party or from a company under contract with this Union; unless such individual commenced receiving a pension benefit from any such fund by virtue of having reached the age of 70½.

(f) He has not sailed in a licensed capacity aboard an American flag merchant vessel or vessels within twenty four (24) consecutive months immediately prior to the opening of nominations.

Section 2. All candidates for, and holders of, other elective jobs not specified in the preceding sections shall be full book members of the Union.

Section 3. All candidates for, and holders of, elective offices and jobs, whether elected or appointed in accordance with this Constitution, shall maintain full book memberships in good

ARTICLE XIII Election for Officers, Assistant Vice-Presidents, and Port Agents

Section 1. Nominations.

Except as provided in Section 2(b) of this Article, any full book member may submit his name for nomination for any office, or the job of Assistant Vice-President, or Port Agent, by delivering or causing to be delivered in person, to the office of the Secretary-Treasurer at Headquarters, or sending a letter addressed to the Credentials Committee, in care of the Secretary-Treasurer at the address of Headquarters. This letter shall be dated and shall contain the following:

- (a) The name of the candidate.
- (b) His home address and mailing address.
- (c) His book number.
- (d) The title of the office or other job for which he is a candidate, including the name of the Port in the event the position sought is that of Port Agent.
- (e) Proof of citizenship.
- (f) Proof of seatime and/or employment as required for can-

(g) In the event the member is on a vessel, he shall notify the Credentials Committee what vessel he is on. This shall be done also if he ships subsequent to forwarding his credentials.

(h) Annexing a certificate in the following form, signed and

ted by the proposed nominee:

I HEREBY CERTIFY that the during the past thirteen (13) years I have not been convicted of, or served any part of a prison term resulting from a conviction for robbery, bribery, extortion, embezzlement, grand larceny, burglary, arson, violation of narcotics laws, murder, rape, assault with intent to kill, assault which inflicts grievous bodily injury, or violation of Title II or III of the Landrum Griffin Act, or conspiracy to commit such crimes. In addition, I certify that I support the Constitution of the United States of America, its institutions and form of government.

Dated	
Signature	of Member
Book No	

Printed forms of the certificate shall be made available to nominees. Where a nominee cannot truthfully execute such a certificate, but is, in fact, legally eligible for an office or job by reason of the restoration of civil rights originally revoked by such conviction or a favorable determination by the Board of Parole of the United States Department of Justice, he shall, in lieu of the foregoing certificate, furnish a complete signed statement of

the facts of his case together with true copies of the documents supporting his statement.

Any full book member may nominate any other full book member in which event such full book member so nominated shall comply with the provisions of this Article as they are set forth herein relating to the submission of credentials. By reason of the above self nomination provision the responsibility, if any, for notifying a nominee of his nomination to office shall be that of the nominator.

All documents required herein must reach Headquarters no earlier than July 15 and no later than August 15 of the election year.

The Secretary-Treasurer is charged with safekeeping of these letters and shall turn them over to the Credentials Committee upon the latter's request.

In order to ascertain the meaning of the term "member in good standing" which is used in Article XII, Subsection 1(b), the Committee referred to Article XXIV, Section 9 of our Constitution which reads as follows:

Section 9. The term "member in good standing" shall mean a member whose monetary obligations to the Union are not in arrears for thirty (30) days or more, or who is not under suspension or expulsion effective in accordance with this Constitution. Unless otherwise expressly indicated, the term "member" shall mean a member in good standing.

Your Committee sought guidance from the Union's General Counsel and the Secretary-Treasurer as to whether this section would apply to a member who is unable to pay dues because of employment aboard an American flag merchant vessel as stated in Article III, Section 3(e). Your Committee was advised that, in keeping with past practice and constitutional interpretation, the same thirty (30) day grace period should be applied in these situations. Accordingly, when a member who is working on foreign articles leaves the vessel, the dues for the applicable quarter must be paid within thirty (30) days from the date of discharge in order to maintain good standing.

Your Committee also referred to Article XXIV, Section 13 for the definition of the term "seatime". This section reads as

Section 13. The term "seatime" shall include employment upon any navigable waters, days of employment in a contracted employer unit represented by the Union or time spent in the employ of the Union or one of the Union's direct affiliates as an elected or appointed representative.

We also noted in Article XXIV, Section 14, the meaning of the term "in an unlicensed capacity aboard an American-flag merchant vessel or vessels." This portion of the Constitution reads as follows:

Section 14. The term "in an unlicensed capacity aboard an American-flag merchant vessel or vessels" shall include persons employed in an unlicensed or licensed capacity aboard dredges, tugboats, towboats and similar vessels used to tow, propel, or push barges or other conveyances or assist merchant vessels in docking or undocking, or persons otherwise employed in a contracted employer unit represented by the Union.

After full and careful deliberations, the Committee made its decisions and sent appropriate notification to candidates. The ultimate decisions of this Committee are later set forth. In arriving at these ultimate decisions, the Committee was most concerned with carrying out a stated principle of our Union which is that "every qualified member shall have the right to nominate himself for, and, if elected or appointed, to hold office in this Union.'

In connection with the foregoing, we have also consulted with the Secretary-Treasurer who, under our Constitution, has the obligation to insure appropriate election procedures as legally required (Article XIII, Section 7). Our Secretary-Treasurer has further consulted with the Union's Counsel as to the law applicable in Union nominations and elections.

The following is a complete listing of all members who submitted their credentials to the Committee. Their names and the office or job for which they submitted such credentials are listed in the order in which this Committee feels they should be placed on the general ballot, that is, in alphabetical order under the office or job for which they run, and that the Ports, following the Headquarters offices, beginning with Piney Point, be arranged on the ballot geographically, as has been done in the past. After each member's name and book number is his/her qualification or disqualification, followed by the reason for that decision.

Qualified Credentials in order

As you will note in the foregoing sections of the Committee's Report, the provisions of the SIU Constitution governing election procedures made it mandatory that one of the nominees be disqualified. In light of these circumstances, the Committee wishes to call to the attention of all members the necessity of following all requirements and procedures which are established by our Constitution to govern eligibility to candidacy to Union office. However, at this time, the Committee particularly desires to point out the provisions of Article XIII, Section 2(c) of the Constitution, which spell out in detail the right of a disqualified candidate to appeal from the decision of the Credentials Commit-

In compliance with Article XIII, Section 2(b) of our Constitution, and in an attempt to give every nominee every consideration and to try to prevent any disqualifications by this Committee, Jayne Peterson, of the Credentials Committee, remained at the

Maritime Stalwart Succumbs to Brain Cancer

Continued from Page 2

she helped to make the port number one in the nation for automobile imports and breakbulk cargo, as well as one of the few East Coast ports that is "Neopanamax-ready."

In 2006, the Port of Baltimore was officially renamed the "Helen Delich Bentley Port of Baltimore" by then-Governor Robert Ehrlich. During a speech made at Bentley's 90th birthday celebration, Ehrlich was quoted as describing the 500 members of the crowd as, "a roomful of

people who both love her and fear her – but not in that order."

"Congresswoman Bentley worked with tenacity, energy, and passion on behalf of her constituents, making her a rare breed in politics and a role model to public servants across Maryland," Governor Larry Hogan said. "She was a trailblazer for women in media and government, a longtime champion for manufacturing, maritime issues, and the Port of Baltimore which proudly bears her name as an everlasting tribute to her achievements."

As a testament to her lasting impact on

Bentley, at the time serving as the top official of the Federal Maritime Commission, addresses the SIUNA convention in 1971.

the industry, it seems that every prominent figure in maritime has a story to tell involving Bentley. *The Washington Post* recalled a classic Bentley incident during a congressional hearing when an admiral told her that parts the Navy needed were cheaper in South Korea. She responded, "Well, Admiral, they make admirals cheaper in Korea, too, and maybe we should buy some."

Current FMC Chairman Mario Cordero said, "Helen Bentley was a pioneer in many different fields and industries, but she will forever be remembered for her work on maritime matters. From the newsroom to the Baltimore waterfront, from the halls of Congress to the chair of the Federal Maritime Commission, she distinguished herself in each and every endeavor she undertook. It is a testament to the fortitude and tenacity that she was known for that she remained an active, forceful, and articulate advocate on shipping and port issues to the very end of her life. It was a privilege to have had the opportunity to know her and I join the many who are saddened by her departure."

Bentley was instrumental in establishing Baltimore's Maritime Industries Academy, one of the first high schools in the nation to promote a maritime curriculum. She also helped ensure the preservation of the *SS John W. Brown*, one of only two operating Liberty ships in the nation.

"Helen played an absolutely vital role in our obtaining the *Brown*," said former Project Liberty Ship Chairman Capt. Brian H. Hope, a retired Chesapeake Bay pilot. "The Coast Guard commandant told us we needed to get a bill through Congress that exempted the *Brown* from modern ship passenger regulations.... The *Brown* arrived in Baltimore in 1998, and the first person up the gangway was Helen Delich Bentley."

Shown at the 2011 AOTOS dinner in New York, Bentley was known for tenacity and getting results.

A recipient of numerous honorary degrees, Bentley has also christened countless vessels and was the annual emcee of the Admiral of the Ocean Sea awards dinner

Her husband, William Roy Bentley, passed away in 2003. The couple had no children.

Spoilight On Martner Health

Become Familiar With the Symptoms of High Blood Pressure

There are many people who say they can tell when their blood pressure is up. This may be true in the later stages of the disease, but what about at the beginning?

The truth is that hypertension is mostly a silent problem. Many do not know they have it until they go to their doctor for a check-up or just have their blood pressure evaluated at a local health fair.

Some are very surprised to find out that it is up and usually say that they feel just fine. This becomes a problem. The blood pressure goes unnoticed for many years and that is when the damage to the circulatory system occurs.

Untreated hypertension can lead to many problems for an individual. If blood pressure continually stays above the normal values, it can result in the following: stroke; heart attack, angina or both; kidney failure; peripheral arterial disease; eye/retinal problems and more

Individuals may take many steps to reduce, eliminate or prevent high blood pressure. Medical experts recommend reaching and maintaining a healthy weight; eating healthful meals that are low in salt and sugars as well as trans fats/saturated fats; and limiting alcohol intake. It's also helpful to be physically active for at least 30 minutes per day, at least three or four times a week. Last but not least, take medications as directed by your doctor, monitor your blood pressure and work on keeping it at a constant, lower level as determined by you and your doctor.

Treatments for high blood pressure will be discussed in an upcoming edition.

Healthful Recipe

Provided by the Paul Hall Center's Harry Lundeberg School of Seamanship

Shrimp & Pineapple Thai Curry

Servings: 25

10 pounds shrimp, peeled and deveined 4 tablespoons coconut oil 6 cups fresh pineapple chunks 16 fluid ounces coconut milk 1 1/4 quarts skim milk 4 cups yellow onion, diced 2 cups red bell pepper, diced 8 cloves garlic, minced fine 5 tablespoons fresh ginger, grated 6 tablespoons curry powder, ground 5 teaspoons honey 2 teaspoons cayenne pepper sea salt, dash 1 cup fresh cilantro, chopped cornstarch cold water

In a 12" heavy skillet heat one-half of the coconut oil on medium high heat for 2 minutes. Add the shrimp and cook until just pink. Set aside and drain the remaining liquid out of the skillet. Add 1 tablespoon of the remaining coconut oil and add the onions cooking on medium. Cook for about 2 minutes and add the garlic and the red pepper.

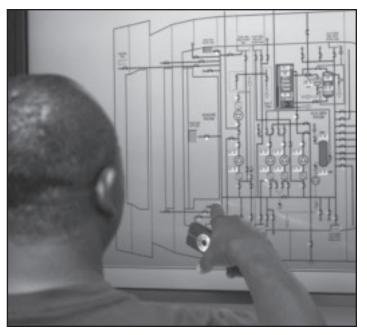

Cook for 2 minutes more until the peppers start to soften but not mushy. Drain and set aside. Add the remaining coconut oil and curry powder to the skillet

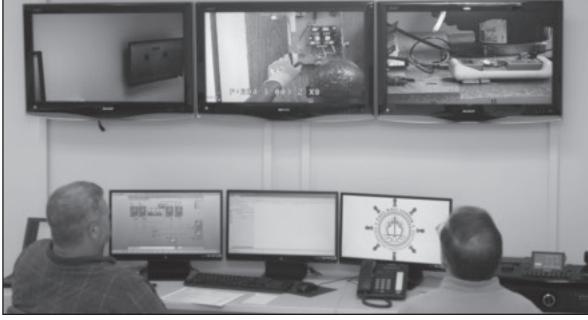

cooking for a minute until the paste becomes fragrant. Add the coconut milk (it may have separated in the can so be sure to get the thick stuff out) ginger, fish sauce and stir with a whisk, being sure to break up the paste and combining the ingredients well. Simmer until the mixture starts to thicken.

Add the honey to get a slight sweet taste. Then add the cayenne pepper to perfect the heat. After the sauce has reduced by 1/3 add the shrimp, peppers and onions back to the skillet and heat through (about 1-2 minutes). Then add one-half the cilantro, stir. Thicken with a cornstarch slurry as needed. Serve in a bowl or over Jasmine rice. Garnish with the remaining cilantro salt to taste.

Per Serving (excluding unknown items): 316 Calories; 10g Fat (29.8% calories from fat); 40g Protein; 15g Carbohydrate; 2g Dietary Fiber; 277mg Cholesterol; 300mg Sodium. Exchanges: 0 Grain (Starch); 5 Lean Meat; 1/2 Vegetable; 1/2 Fruit; 0 Non-Fat Milk; 1 1/2 Fat; O Other Carbohydrates.

Engine Assessment Program Launched in Piney Point

The SIU-affiliated Paul Hall Center for Maritime Training and Education (PHC) has started conducting a new engine assessment program for engineering officers employed by Seafarers-contracted Crowley Maritime.

In conjunction with subject matter experts and an engineering instructional team at the PHC, the school created a twoday curriculum which "evaluates the ability of engineering officers with respect to International Convention on Standards of Training, Certification and Watchkeeping for Seafarers (STCW) requirements and company core values," noted Susan Fagan, simulator coordinator and an instructor at the facility in Piney Point, Maryland. "After months of planning and running pilot courses with volunteers actively sailing in the industry, with credentials ranging from designated duty engineer to chief engineer, we have been able to create effective assessment criteria which will allow us to determine a candidate's ability to successfully perform routine duties pertinent to the STCW-Officer In Charge of an Engineering Watch (OICEW) rating; respond in emergency situations specified in the STCW-OICEW rating; and work comfortably in an automated engine room."

Consistent with the school's 49-year history, the class is an example of how the PHC is able to produce company-specific curriculums. This assessment program is open to all existing and potential Crowley Maritime engineering officers and is scheduled by the company.

Fagan added that the program utilizes the school's state-of-the-art, full-mission engine room simulator and is the first of its kind in the U.S.

Prospective students should possess an endorsement for designated duty engineer (DDE) or higher.

In its announcement about the new curriculum, Crowley noted, "The program teaches students how to use the simulator, and catalogs and critiques mariner responses to conditions that would be difficult or impractical to duplicate at sea. Results are used to track fleet-wide skills and performance, and better focus training into areas needing improvement."

Crowley mariners and school instructors are pictured (photo directly above and the two others at the top of this page) during the initial offerings of the new engine assessment program in Piney Point, Maryland.

Committee Releases Report on Candidates

Continued from Page 6

entrance of the Headquarters building of the Union until midnight of Monday, August 15, 2016, to receive any credentials that might have been delivered by hand after the closing of business hours by the Union.

The Committee points out that in the President's Pre-Balloting Report approved by the membership as per the Constitution and published in the May SEA-FARERS LOG the exact offices and jobs for which nominations were to be made was set forth.

In passing upon the credentials for certain of the nominees, this Committee had to make one disqualification, and the following are the details relative to that disqualification:

1. <u>Linnell Coleman, C-05727</u> – candidate for Assistant Vice President of Contracts & Contract Enforcement

Your Committee noted the receipt of a letter dated July 22, 2016, addressed to the Secretary-Treasurer/Credentials Committee in which Brother Coleman requested his name be placed on the ballot for election to the position of Assistant Vice President of Contracts.

Union records indicate that Brother Coleman paid his dues for the Fourth Quarter of 2013 on November 18, 2013, whereas they should have been paid no later than November 1, 2013; First Quarter of 2014 dues were paid on September 11, 2014, whereas they should have been paid no later than April 1, 2014; Second Quarter of 2014 dues were paid on September 11, 2014, whereas they should have been paid no later than May 1, 2014; Third Quarter of 2014 dues were paid on September 11, 2014, whereas they should have been paid no later than August 1, 2014; Fourth Quarter of 2014 dues were paid on January 23, 2015, whereas they should have been paid no later than November 1, 2014; Second Quarter of 2015 dues were paid on June 2, 2015; whereas they should have been paid no later than May 1, 2015; Third Quarter of 2015 dues were paid on March 10, 2016, whereas they should have been paid no later than August 1, 2015; Fourth Quarter of 2015 dues were paid on March 10, 2016, whereas they should have been paid no later than November 1, 2015; First Quarter of 2016 dues were paid on March 10, 2016; whereas they should have been paid no later than February 1, 2016; Second Quarter of 2016 dues were paid on July 12, 2016, whereas they should have been paid no later than May 1, 2016.

Based upon the provisions of Article XII, Section 1 (b), and further supported by Article III, Section 3; Article V and Article XXIV, Section 9 previously carried herein, the committee disqualified Brother Coleman for the job of Assistant Vice President of Contracts & Contract Enforcement solely as a result of not being in continuous good standing during the relevant time

In accordance with the requirements of Article XIII, Section 2 (c) of our Constitution, and in order to assure adequate notice of its decision, the committee informed Brother Coleman of his disqualification and set forth the reason for such disqualification by certified overnight mail sent on August 16, 2016 to the address stated in his letter of nomination. A copy of the Union Constitution was enclosed with the aforementioned letter so that Brother Coleman would have available the procedure to be followed in appeal from the disqualification decision of the Committee. Your committee was notified that Brother Coleman was currently onboard the Alliance Norfolk. The committee tried to reach Brother Coleman by phone with a phone number that he provided on his nomination letter. He was unavailable, so Secretary-Treasurer Heindel and the committee left him a message.

All credentials received as of August 15, 2016 have been furnished to the Committee in good order. All credentials have been examined in strict accordance with the Constitution. Any defect in the credentials disposed of by the Committee has been the sole responsibility of the sender and no person adversely affected by such defect has denied this to the Committee.

Dated: August 16, 2016

Union Constitution Gives Procedure For Obtaining 2016 Absentee Ballots

Elections for the SIU Atlantic, Gulf, Lakes and Inland Waters are scheduled for later this year. As in past SIU election years, a comprehensive guide will be published in the *Seafarers LOG* prior to the balloting.

In the case of members eligible to vote who believe they will be at sea during the Nov. 1 through Dec. 31, 2016 voting period or who otherwise think they will need absentee ballots, absentee ballots will be available.

The SIU constitution ensures that members who are eligible to vote and who find themselves in this situation may vote. Procedures are established in the SIU constitution to safeguard the secret ballot election, including the absentee ballot process.

Here is the procedure to follow when requesting an absentee ballot:

- 1. Make the request in writing to the SIU Office of the Secretary-Treasurer, 5201 Auth Way, Camp Springs, MD 20746.
- 2. Include in the request the correct address where the absentee ballot should be mailed.
- 3. Send the request for an absentee ballot by registered or certified mail.
- 4. The registered or certified mail envelope must be postmarked no

later than midnight, Nov. 15, 2016 and must be received at 5201 Auth Way, Camp Springs, MD 20746 no later than Nov. 25, 2016.

- 5. The secretary-treasurer, after confirming eligibility, will send by registered mail, return receipt requested, to the address designated in the request, a ballot, together with an envelope marked "Ballot" and a mailing envelope no later than Nov. 30, 2016
- 6. Upon receiving the ballot and envelope, vote by marking the ballot. After voting the ballot, place the ballot in the envelope marked "Ballot." Do not write on the "Ballot" envelope.
- lope.
 7. Place the envelope marked "Ballot" in the mailing envelope which is imprinted with the mailing address of the bank depository where all ballots are sent.
- 8. Sign the mailing envelope on the first line of the upper left-hand corner. Print name and book number on the second line. The mailing envelope is self-addressed and stamped.
- 9. The mailing envelope must be postmarked no later than midnight, Dec. 31, 2016 and received by the bank depository no later than Jan. 5, 2017

SIU Crews Help Execute 'Skin to Skin' Maneuver

SIU members recently put their skills on display when they helped to flawlessly perform a technical maneuver at sea.

The crews of the *USNS Dahl* and the *USNS Montford Point* executed a "skin to skin" (S2S) operation in July in the Pacific, in order to demonstrate the unique seabasing capabilities of civilian-crewed Military Sealift Command (MSC) vessels.

The USNS Montford Point is operated by Ocean Shipholdings, while the USNS Dahl is operated by Patriot Contract Services.

In a S2S operation, the ships navigate alongside and are moored together. During the maneuver, the *Montford Point* acted as a floating pier, while the *Dahl* simulated the offloading of vehicles and equipment. While in this case no equipment was transferred, during a real operation, vehicles and other cargoes are moved between the vessels via the *Montford Point's* ramp.

The two vessels repeated the operation twice more in subsequent days, to show how routinely the ships can complete a S2S maneuver.

According to MSC, the *Montford Point* is categorized as an expeditionary floating pierat-sea. The ship is part of Maritime Prepositioning Ships Squadron (MPSRON) 3, and is assigned to the Marine Corps. Among other services, the *Montford Point* can provide a pier-at-sea to move and transfer cargo from large, medium-speed, roll-on/roll-off (RO/RO) ships onto landing craft air cushion (LCAC) vessels that can dock with the *Montford Point*.

When the *Montford Point* is on a mission, the ship submerges to about 40 feet while underway to the area of operations. Once on

Mariners gather (photo above) near the vessels, with the vehicle transfer ramp in the background. In the photo at right below, the *Mont-ford Point* (right) and *Dahl* connect for the exercise. In the remaining photo, two Navy captains observe from the *USNS Dahl* as the *USNS Montford Point* approaches in the Pacific.

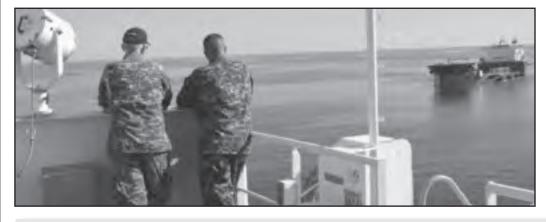

station it submerges to about 50 feet, so that the LCACs can maneuver onto the mission deck to pick up cargo.

A Navy officer recently lauded the Montford Point's "unique capability" within the U.S. 7th Fleet area of responsibility. The

flexibility of the *Montford Point* also allows the vessel to be useful for humanitarian disaster response as well as warfighter support.

According to the Navy, the main advantage of the pier-at-sea concept is the mobility

of the two ships. That maneuverability allows the floating pier to remain mobile, thus making them a less-opportunistic target for enemy combatants. The makeshift pier can operate 25 miles off shore and still provide support for the military services.

Know Your Rights

FINANCIAL REPORTS. The Constitution of the SIU Atlantic, Gulf, Lakes and Inland Waters District/NMU makes specific provision for safeguarding the membership's money and union finances. The constitution requires a detailed audit by certified public accountants every year, which is to be submitted to the membership by the secretary-treasurer. A yearly finance committee of rank-and-file members, elected by the membership, each year examines the finances of the union and reports fully their findings and recommendations. Members of this committee may make dissenting reports, specific recommendations and separate findings.

TRUST FUNDS. All trust funds of the SIU Atlantic, Gulf, Lakes and Inland Waters are administered in accordance with the provisions of various trust fund agreements. All these agreements specify that the trustees in charge of these funds shall equally consist of union and management representatives and their alternates. All expenditures and disbursements of trust funds are made only upon approval by a majority of the trustees. All trust fund financial records are available at the headquarters of the various trust funds.

SHIPPING RIGHTS. A member's shipping rights and seniority are protected exclusively by contracts between the union and the employers. Members should get to know their shipping rights. Copies of these contracts are posted and available in all union halls. If members believe there have been violations of their shipping or seniority rights as contained in the contracts between the union and the employers, they should notify the Seafarers Appeals Board by certified mail, return receipt requested. The proper address for this is:

Augustin Tellez, Chairman Seafarers Appeals Board 5201 Auth Way Camp Springs, MD 20746

Full copies of contracts as referred to are available to members at all times, either by writing directly to the union or to the Seafarers Appeals Board.

CONTRACTS. Copies of all SIU contracts are available in all SIU halls. These contracts specify the wages and conditions under which an SIU member works and lives aboard a ship or boat. Members should know their contract rights, as well as their obligations, such as filing for overtime (OT) on the proper sheets and in the proper manner. If, at any time, a member believes that an SIU patrolman or other union official fails to protect their contractual rights properly, he or she should contact the nearest SIU port agent.

EDITORIAL POLICY — THE SEA-FARERS LOG. The Seafarers LOG traditionally has refrained from publishing any article serving the political purposes of any individual in the union, officer or member. It also has refrained from publishing articles deemed harmful to the union or its collective membership. This established policy has been reaffirmed by membership action at the September 1960 meetings in all constitutional ports. The responsibility for Seafarers LOG policy is vested in an editorial board which consists of the executive board of the union. The executive board may delegate, from among its ranks, one individual to carry out this responsibility.

PAYMENT OF MONIES. No monies are to be paid to anyone in any official

capacity in the SIU unless an official union receipt is given for same. Under no circumstances should any member pay any money for any reason unless he is given such receipt. In the event anyone attempts to require any such payment be made without supplying a receipt, or if a member is required to make a payment and is given an official receipt, but feels that he or she should not have been required to make such payment, this should immediately be reported to union headquarters.

CONSTITUTIONAL RIGHTS AND OBLIGATIONS. Copies of the SIU Constitution are available in all union halls. All members should obtain copies of this constitution so as to familiarize themselves with its contents. Any time a member feels any other member or officer is attempting to deprive him or her of any constitutional right or obligation by any methods, such as dealing with charges, trials, etc., as well as all other details, the member so affected should immediately notify headquarters.

EQUAL RIGHTS. All members are guaranteed equal rights in employment and as members of the SIU. These rights are clearly set forth in the SIU Constitution and in the contracts which the union has negotiated with the employers. Consequently, no member may be discriminated against because of race, creed, color, sex, national or geographic origin.

If any member feels that he or she is denied the equal rights to which he or she is entitled, the member should notify union headquarters.

SÉAFARERS POLITICAL ACTIVITY DONATION — SPAD.

SPAD is a separate segregated fund. Its proceeds are used to further its objects and purposes including, but not limited to, furthering the political, social and economic interests of maritime workers, the preservation and furthering of the American merchant marine with improved employment opportunities for seamen and boatmen and the advancement of trade union concepts. In connection with such objects, SPAD supports and contributes to political candidates for elective office. All contributions are voluntary. No contribution may be solicited or received because of force, job discrimination, financial reprisal, or threat of such conduct, or as a condition of membership in the union or of employment. If a contribution is made by reason of the above improper conduct, the member should notify the Seafarers International Union or SPAD by certified mail within 30 days of the contribution for investigation and appropriate action and refund, if involuntary. A member should support SPAD to protect and further his or her economic, political and social interests, and American trade union concepts.

NOTIFYING THE UNION. If at any time a member feels that any of the above rights have been violated, or that he or she has been denied the constitutional right of access to union records or information, the member should immediately notify SIU President Michael Sacco at headquarters by certified mail, return receipt requested. The address is:

Michael Sacco, President Seafarers International Union 5201 Auth Way Camp Springs, MD 20746

NFL Kickoff Has Strong Union Connection

As many union members celebrate the start of another NFL season, some may not be aware that they are also cheering for their union brothers taking the field. Despite the high-profile occupations of its members, the National Football League Players Association (NFLPA) is an AFL-CIO affiliate union just like the SIU and dozens of others.

The NFLPA was formed in 1956, and represents both former and current NFL players. Since its inception, the union has fought against the league's owners over many issues that ring true for all union members, including clean, safe uniforms and equipment; a minimum wage; health insurance; and even direct deposit.

"The locker room is a workplace, the football field is a workplace," said the NFLPA's Public Policy Counsel Joe Briggs, explaining the many similarities between the NFLPA and other unions.

"Each of the 32 teams has a player representative, or shop steward," he added during a July 19 gathering at AFL-CIO headquarters in Washington, D.C.

According to a video produced by the NFLPA, "Winning in this sport takes more than toughness on the field – it takes a union." And the history of the NFL supports that claim, as the sport Americans know and love would look vastly different if not for the influence of the NFLPA. A league minimum wage, free agency, and even the ability for fans to purchase a player's jersey all came to fruition through contract negotiations between the league and the NFLPA.

In modern times, the NFLPA has fought for member benefits that are commonplace for much smaller shops.

"In 2011, only 10 teams paid players via direct deposit. The rest of the league could hand players checks for hundreds

of thousands of dollars every Sunday," remarked Briggs, who added the union won that initiative.

While workplace safety is critical for every union member, the NFLPA has always had to fight an uphill battle against the league to have their concerns recognized and heard, Briggs said. As part of the very first negotiations, the NFLPA's first president, John Mackey, had three demands.

"In the first round of bargaining, the guys wanted three things: clean uniforms, a \$5,000 minimum wage, and injury insurance. All three requests were denied by the league," said Briggs.

Eventually the league and the union would work together to make the game safer – and more profitable – for members and owners alike. Sixty years later, the game has seen many improvements to player safety, due in large part to the

NFLPA fighting tirelessly for their members

As part of the NFLPA's most recent contract renegotiation in 2011, an agreement was reached with the league to remove "two-a-day" practices, and limit the number of full-pad practices to 14 times a season. These changes were in response to the growing concerns of the players in relation to the risk of chronic traumatic encephalopathy (CTE) cause by concussions.

The NFL may have a league average salary that leaves many union members green with envy, but the football players who take the field on Sundays are nevertheless union-made. Their workplace struggles mirror many who fight for workers' rights every day, and their success stands as a shining example of what can be accomplished thanks to collective bargaining.

NMC Posts Update Relating to Mariner Credential Exams

The U.S. Coast Guard's National Maritime Center (NMC) in late July announced that in order to comply with updated laws, the agency "will cease public disclosure of examination questions and other information related to exams."

Specifically, the NMC noted that the Coast Guard Authorization Act of 2015 "requires several actions regarding merchant mariner credentialing.... The Coast Guard is actively engaged in these actions and will publish additional information as it becomes available."

In place of the exam questions, the NMC has posted an outline of merchant mariner examination topics along with sample questions.

Moreover, the agency reported that it "intends to remove the current back of examination questions and illustrations from the National Maritime Center website on or about Sept. 1, 2016" (after this issue of the *LOG* went to press).

Questions or feedback regarding the sample examinations may be made by email at IASKNMC@uscg.mil or by calling 1-888-IASKNMC (1-888-427-5662), or by using the agency's online chat or ticketing system. The latter resources are linked in a July 28 post in the News section of the SIU website and are available on the NMC website: www.uscg.mil/nmc

SHBP Notice to Seafarers

Plan Offers New Tobacco Cessation Benefits

The advantages of quitting smoking are well known, but quitting is difficult. If you are thinking of quitting, the Seafarers Health and Benefits Plan (SHBP) has a new benefit to help you. The Plan now offers tobacco cessation benefits, in partnership with CIGNA, to assist you in your effort to stop smoking or using tobacco. This program is available to all eligible members, their spouses, and their children over age 18.

The program includes nicotine replacement, as well as coaching services, and other online tools and resources. Anyone

who enrolls in the program will receive an eight-week supply of nicotine patches or 12 weeks of nicotine gum. To enroll, contact CIGNA/CareAllies at 1-866-417-7848.

Tobacco is the leading cause of preventable disease and death in the U.S. The benefits of quitting smoking include reduced risk of cancer, lung disease, stroke, heart disease, eye disease and osteoporosis. Smoking not only harms the smoker, but exposure to secondhand smoke increases health risk to non-smokers as well. Each year, thousands of young chil-

dren and babies become ill because they live in the home of a smoker. More information about the risks of tobacco and the benefits of quitting are available at www. smokefree.gov.

If you or a member of your family are trying to stop smoking or using tobacco, we encourage you to take advantage of this new benefit. The SHBP sent information regarding this benefit to all participants in a letter dated July 15. If you did not receive the letter, or have any questions about this benefit, please contact the Plan at 1-800-252-4674.

Sailors' Snug Harbor Still Assisting Retired Mariners

A charity with more than 200 years of experience in serving retired mariners is still committed to that goal, and now aims to help even more men and women by using a fresh approach.

The Trustees of the Sailors' Snug Harbor (SSH) was incorporated in 1806 as the result of a bequest made by Captain Robert Richard Randall, a wealthy New York merchant. It was Captain Randall's desire to have his estate utilized to assist "aged, decrepit and wornout seamen..."

While in the past SSH operated retirement facilities for mariners in Sea Level, North Carolina, and Staten Island, New York, today they assist mariners in their home communities where they are more likely to be near family and friends.

The SSH is one of the oldest secular charities in the country, whose mission is to financially aid retired career mariners with a proven need of assistance. More than 16,500 mariners have been assisted since its inception.

While the SSH helps many mariners every day, even more eligible mariners may be unaware of the possible financial assistance available. Previously exclusive to deep sea mariners, SSH has recently added inland mariners to their eligibility criteria.

In order to qualify for financial assistance from SSH, a retired mariner must be able to demonstrate they have a need for financial assistance and meet the following requirements:

■ 2,555 days of deep sea time, at least five years on U.S.-flagged ships or

14 years working on inland waters

- 65 years of age or older or on disability (some exceptions may be made)
- Proven need for financial assistance
- An individual with at least \$50,000 in assets will not be eligible (primary residence excluded)
- All public benefits available to a mariner must be accessed (if eligible) before any subsidy from SSH is approved for example, VA benefits, Medicaid, food stamps etc.

Each interested mariner must complete an application that requires detailed information about present living arrangements, financial history, and more. The application can be found online at www.thesailorssnugharbor. org or by calling SSH at 1-888-257-5456

Seakay Spirit Sails in Houston

Seafarer John Cox submitted this photo of the Keystone-operated vessel transiting the Houston Ship Channel in early August.

At Sea and Ashore with the SIU

EARNEST UPDATE FROM USNS WHEELER – Vessel master Capt. Glenn Macario submitted this best from the Tata companying photo from the Tote Services vessel: "Recently the crew of the USNS VADM K.R. Wheeler took a break from dodging blame, shirking responsibility, and embellishing their accomplishments. In a show of solidarity, ship's pride (and to escape work for 20 minutes), all available hands assembled at the newlypainted gangway with the ship's new gangway banner, wearing their new "Wheeler Crew" T-shirts and shooting the "Wheeler crew" (WC) gang symbol. On the gangway from left to right: AB Jay "are we done yet" Aki; 3/M John "I will not miss this in retirement" Robbins; Captain Glenn "you guys only like me when I do payroll" Macario; Chief Engineer Frank "step aside captain" Celino; Bosun Jerry "I had nothing to do with this" Gonzaga; 2/M Chris "can I go home now?" Kali; QMED D.J. "I don't know these guys" Signal. On the ground from

left to right: C/M Mark "yes I am taking the credit for this" Kerr; AB Walter "good, they can't see my face" Lichota; 3 A/E Chris "this is not so bad" Gilman; 3 A/E Royce "they can still see me" Dudley; First Engineer Shannon "what is that bright thing in the sky?" Wilson; 3 A/E Roy "I'd rather be in the Philippines" Coleman; 3/M Joe "five and a wake up" Newhouse; 2 A/E Chris "Mongo" Rich; 3/M Tommaso "I signed up for THIS?" Giannetti; Wiper Jarvis "my first ship and I'm scarred for life" Carter; AB James "this sure beats needle gunning" Wynegar. Not pictured are AB Kevin "drone man" Hanmont (sleeping/off watch), Chief Steward Ramon Tolosa and Cook Rommel Reston (in the galley preparing/burning lunch). Proof once again that Wheeler is one big happy (though slightly dysfunctional) family."

WELCOME ASHORE IN HOUSTON – Two recertified bosuns – each with 40 years in the SIU – recently wrapped up their respective seagoing careers. Harold Sebring is at right in the photo above at left, with Patrolman Joe Zavala, while Billy Hill is at left in the photo at right, with Patrolman J.B. Niday. Both Seafarers picked up their first pension checks at the Houston hall.

ABOARD APL BELGIUM – Chief Steward Thomas Johnson (right) submitted this photo of SIU steward department members on the *APL Belgium*, on Independence Day. From left: Chief Cook Benjamin Feria, ACU David Simon and Chief Steward Johnson.

ABOARD

FULL BOOK ABOARD FERRY — Seafarer Paul Sprieser (right), a captain with NY Waterway, recently picked up his full union book. Presenting it is Patrolman Ray Henderson.

Eleven Bosuns Ascend Ladder to Top, Achieve Recertified Status

Eleven deck department Seafarers recently recorded the crowning achievements of their respective upgrading careers when they graduated from the Bosun Recertification course at the union-affiliated Paul Hall Center for Maritime Training and Education (PHC) in Piney Point, Maryland.

In recognition of their ascent to the summit of the deck department hierarchy, each received certificates Aug. 8 during the union's membership meeting at the PHC. The graduates—Bosuns Kenny Abrahamson, Bernard Baker, James Blitch, David Denizac, Paul Inniss, Karl Mayhew, Hussein Mohamed, Noel Otero, Ritche Acuman, Ron Sagadraca and Tecumseh Williams—also addressed union officials, fellow upgraders, trainees and guests who attended the meeting.

Collectively, they expressed their gratitude for the opportunities they have been afforded to enhance their skills. improve their lives and those of their families, and become better shipmates to their brothers and sisters aboard SIUcontracted vessels. In addition, each thanked the union leadership for its continued support, and the PHC vocational and hotel staffs for their excellent instruction and accommodations, respectively. Finally, they acknowledged a host of other individuals who played key roles in their successes.

Baker was the first to take the podium. He sails out of the Port of St. Louis and has returned to the school nine previous times to improve his skills. Baker signed on with the union in 1993 in Honolulu

"I have been sailing for 46 years ... 23 in the Navy and 23 with the SIU," he told the

Recertified Bosun Bernard Baker

audience. "The union has been my lifeline after leaving the Navy. It has given me a place to use the leadership skills I acquired in the Navy and has taught me a great deal not only about deck seamanship but also about the Brotherhood of the Sea." Baker then expressed his

appreciation to the school and the union's leadership for supporting him over the years. "I would like to thank the instructors and staff of the school—past and present—for all the help and encouragement they have given me throughout the years,"

he said. "I also thank the union leadership for all their hard work protecting our jobs.

In closing, Baker offered words of encouragement to the apprentices who were in attendance. "You are the future of the union," he said "Learn as much as you can so that you can position yourselves to become the leaders of the SIU's future. Listen, learn and never be afraid to ask questions."

Blitch sails from the Port of Jacksonville and has been a member of the SIU family since 1979.

"I was a member of Class 275-B," he told the audience. "Sailing in the deck department as ordinary seaman, able bodied seaman and as bosun, I have sailed around the world a dozen times. The union has provided me and my family the ability to enjoy the life of a proud American and proud union member.

He then recognized the school's instructors and the union's leadership for their respective contributions toward his career accomplishments, saying: "I would like to thank everyone at the school for their instruction and help. Every time I return to the school, you have become more professional and helpful.

Recertified Bosun James Blitch

hard work at headquarters and the training at the school have secured jobs for the future," he con-

tinued. "All Seafarers are

grateful to you."

to make donations.

He then reminded his brothers and sisters of the importance of being politically active and how it benefits the entire organization. "SPAD is one thing we should not forget because it works for all of us." Blitch said. He encouraged everyone to support SPAD by continuing

"You trainees should always remember this: You have the opportunity to live the life others only dream of." he said to the apprentices in closing. "It's (sailing) long hours of hard work that will pay you back ten-fold. Always remember the men and women who came before you and make them proud.

"Don't forget to vote in all elections," he added.

Hussein Mohamed

Mohamed hails from the Port of Wilmington. He joined the SIU in 1997 in Honolulu and on three previous occasions has upgraded his skills in Pinev Point.

"The union has been important in my life because if it were not for the SIU, I would not be standing here in front of you," he said.

The son and grandson of former SIU members, Mohamed said, "The SIU gave me the opportunity to improve myself and be able to support my family. I am proud to be a part of the SIU and I strongly encourage all union members to come to the school and upgrade your skills in order to advance your careers. Many thanks to the staff and instructors at the Paul Hall Center for a great iob here at the school.'

Recertified Bosun Hussein Mohamed

Turning his attention to the leadership, Mohamed thanked officials for their efforts that have benefitted the membership. "I would like to give thanks to the union leadership for all their hard work preserving and protecting our jobs, he said. "For them to continue to protect our industry, they need our help. We need to donate to SPAD and exercise our right to vote, especially this year."

Addressing the apprentices, he said, "You are the future of the SIU. Study hard, work hard and listen to your instructors." He closed by advising all members present that it is vital to return to the school as often as possible to upgrade their skills.

Kenny Abrahamson

Abrahamson sails from the Port of Oakland. A Seafarer since 1998, he was member of Paul Hall Center Apprentice Class 574. Prior to attending the bosun recertification class, Abrahamson returned to the school on three previous to enhance his skills.

"I have sailed to every continent and have crossed every

the SIU. "The union has been im-

ocean," he said upon taking the podium. "Seeing the world has given me a unique opportunity to appreciate being an American, an experience that would not have been possible without

portant in my life because it has provided me with a career in which I can support my family and handle a mortgage," he continued. "I appreciate all of the hard work the union leadership has done to make my career possible and the things they still do to protect our jobs and our fleet. During my visit to headquarters, I got to see how

dedicated they all are to us and our future.' comes to protecting jobs and the industry. "We can do this by being professionals at work, upgrading the skills we need to do our jobs and donating to SPAD," Abrahamson stated. "We donate to SPAD so we can have a voice in Washington." Abrahamson also told those present to be politically active by voting in the upcoming union as well as national elections.

"Apply yourselves while you are here," he urged the apprentices in closing. "When you get aboard ships, work hard and pay attention to the old timers."

A union member since 1983, Sagadraca donned the SIU colors in Honolulu. He calls the Port of Wilmington home and has upgraded his skills at the school on two prior occa-

"I've been sailing for 33 years," Sagadraca told his union brothers and sisters. "It's an honor to be here today The union has provided me with a solid foundation throughout my career. I could not have achieved what I have without the professionalism and support of the staff and instructors here at the school and our leadership at headquarters."

Reflecting on the training he received during the recertification curriculum, he said it was a great experience and a wonderful learning opportunity. "I would like to thank the committee and my peers for selecting me to be a member of this bosun recertification class," he said. "It gave

me a broad vision and greater understanding of how hard the SIU works for us.'

He added that the knowledge he gained during his training would make him a more effective leader aboard his vessel. "I will now be able to provide crew members with accurate information on how the union really works," he said. "Hopefully, this will groom and guide them into becoming more professional mariners and better representa-

Sagadraca closed by offering the trainees encouragement in their studies and best wishes for successful careers. "Study hard, listen to your instructors and don't forget to vote in the upcoming union and national elections," he said.

Tecumseh Williams

Williams has been sailing under the SIU colors since 1977. He joined in Norfolk, Virginia, the same port which he currently calls home.

Williams expressed his gratitude to all involved for the wealth of new knowledge he gained about the SIU and maritime industry as a result of attending the class.

Recertified Bosun **Tecumseh Williams**

"I thank everyone involved for this opportunity to get into the bosun recertification course," he said. "During this training, I learned a lot of things about the union that I didn't know." Williams said he was

Recertified Bosun

Ron Sagadraca

especially impressed with his visit to headquarters. It was there that he and his classmates received an upclose and personal look at the things that go on quietly behind the scenes which help keep the organization running. "I learned a lot about what our officials do on a

daily basis on behalf of the union's membership," he said. "They work very hard to get

and keep our jobs and protect our industry.

He thanked the school's instructors and staff for making his Piney Point experience a memorable one. "The instructors did a great job and the staff was very supportive," he said. "I thank them all as well as my classmates for making my trip here informative and rewarding.

"The SIU is a great career," he said to the apprentices in closing. "Work hard and upgrade."

Recertified Bosun

Ritche Acuman

Acuman was next to address the meeting. An SIU member since 2002, he signed on in the Port of San Francisco. He sails from the Port of Oakland and on six previ-

> his skills at the PHC. "In 1992, I graduated in

the Philippines with a bachelor of science in marine transportation," he said. "After my graduation, I was able to sail right away. Working on a ship has always been my passion. "Since joining the SIU

in San Francisco, I can say without a shadow of a doubt that my career has blossomed," he continued. "Since joining the union, I am living the American dream.'

Acuman said he feels

"fortunate that I found the SIU" and added, "It's an honor to be a part of it. I now have a stable income, extra money to help my family here and my relatives back home in the Philippines and peace of mind in knowing that there will always be a job for me and for all of us. There are lots of opportunities out there waiting for us to take advantage of

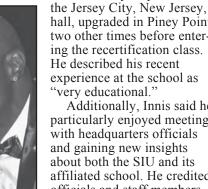

Addressing the apprentices, Acuman said that if they demonstrate perseverance, they have an excellent chance to realize their career goals. "Be open-minded, be hungry, believe in yourselves and stay focused on your goals," he said. "Always conduct yourselves in a professional manner regardless of the situation you may face because you are ambassadors for the SIU.'

Acuman then thanked the union officials – including those based at headquarters and Oakland, respectively – for the hard work they have done on behalf him and the rest of the membership. He also expressed his gratitude to the PHC instructors and staff. "I would not be here today of God had not blessed me with good people who supported me 100 percent," he said.

"Last but not least (I thank) my lovely wife, Myrel, for always being there for me and my children who keep me grounded," he concluded. "Before I return to my seat, I want to share a passage from the Bible with you: In Philippians 4:13, it says I can do all things through Christ, who strengthens me.'

Paul Inniss

Inniss, who joined the union in 2001 in New York and who currently ships from

Recertified Bosun Paul Inniss

hall, upgraded in Piney Point two other times before entering the recertification class. He described his recent experience at the school as "very educational." Additionally, Innis said he

particularly enjoyed meeting with headquarters officials and gaining new insights about both the SIU and its affiliated school. He credited officials and staff members with promptly and accurately answering his questions on various topics.

During the class, Innis also fondly recalled becoming part of the SIU when his old labor organization (the National Maritime Union) merged into the Seafarers. The

"I come from a seafaring background – my uncles sailed," he noted. "There are many reasons I love being a seaman. I love my job and it's good money, too."

merger helped him stick with a career he finds meaning-

A proud union member since 1999, Otero was next to address his brothers and sisters. He sails from the Port of San Juan.

"Yes, I'm another tall, good looking guy from San Juan. Puerto Rico," he said in a friendly reference to Port Agent Amancio Crespo.

"Today, I am a proud member of another prestigious bosun recertification class. I am ready to take on another job and to continue my seaworthy career with the SIU.'

Reflecting on past events that led him to donning the SIU colors, Otero offered, row that I remember my first days as an ordinary seaman. After 10 years of continuous service, I was laid off from a hotel at which I had been working.'

It was at that point that he discovered the SIU. "I took on the challenge that this

great organization offered me," he recalled. Job security has not been an issue for him since those early days; but he has noticed the maritime transportation business fluctuating before his eyes.

Recertified Bosun

Noel Otero

"The maritime industry has changed tremendously since then," he said, "Every time we look around, another new rule or regulatory amendment comes across our bow." Otero pointed out that given the emphasis on vessel

safety and the constant threat of maritime terrorism on

game where education and professionalism are concerned. "It is comforting and assuring to know that we belong to a union that prepares its members in the highest levels of maritime science and safety so that operators will be as-

sured of success," he said. "This secures a great future for

members and their families as well.'

tinue to be an industry icon," he said.

the high seas, mariners must always be at the top of their

After wishing the trainees the very best in their careers, he reminded them of the importance of returning to the school to hone their skills. "This maritime center for training and education has been a lighthouse for those lost at sea ... and with our support and participation, it will con-

Mayhew hails from the Port of Jersey City. An SIU member since 2001, he signed on in New York. Brother Mayhew has upgraded his

sions at the Paul Hall Center. "I am proud to be a member of the SIU," he said. "I have been fortunate to ship from the port of New York

skills on 12 previous occa-

and Jersey City since 1990. Mayhew told the audience that it is vitally important for them as mariners to always carry and conduct themselves as professionals. "You should do this whether you are in one of our union hiring halls, here at the school or on a ship," he said. "Treat other people like you would like to be treated.'

Reflecting on what being an SIU member has meant to him, Mayhew said that being a union member in good standing over the decades has made it finically possible to provide himself and his family a better standard of living. "Try maintaining an SIU standard of living with a non-union paying job. Good luck with that," he said.

Addressing the importance of political activity, Mayhew told those present that as they advanced in their careers—which is not just a job—they should give back in order to help those who follow them. "I honestly did not always appreciate the importance of our Seafarers Political Action Donation program" he said. "Without SPAD to help our elected officials inform everyone possible about what we professional mariners do, our union jobs could end up being eliminated in the future.'

He reminded the audience that the SIU of Canada recently won a fight to make sure that their union members got first chance for employment on domestic ships. "Without SPAD, we would all have no chance," he said.

right are: Karl Mayhew, Noel Otero, David Denizac, Paul Inniss, Ritche Acuman, Bernard Baker, Hussein Mohamed, Kenny Abrahamson, James Blitch, Ron Sagadraca and Tecumseh Williams. "Please let us all work together for our future." He then thanked the union leadership for their hard work in protecting the membership's future and jobs. Mayhew suggested that union members should demonstrate their appreciation to the organization by always doing their best on the job. "To do this, we must make a

commitment to continually upgrading our maritime skills

here at one of the best Coast Guard-approved training fa-

cilities in the United States," he said. "Also, please vote in our union and presidential elections this November. "I would like to thank the good instructors here at this school, especially Peggy Densford in the academic department for her help with our speeches," he continued. "All the great people here do such a good job of making our school run so well, day in and year out, they should be commended." He then sent shout-outs to union officials on the dais and at the Jersey City Hall—including Port

Agent Bobby Selzer—for all they do. "To the trainees, never be afraid to ask questions and please try to learn from your instructors while you are here," Mayhew said in closing. "One of the more important lessons you'll face is learning how to work together as a team with your classmates.

"Teamwork is vital in doing our jobs," he concluded.

At the conclusion of the membership meeting, the 11 newly recertified bosuns joined for this group photo. Pictured from left to

Denizac was the final graduate to address his peers. He sails from the Port of Jacksonville, joined the union in New York and has enhanced his sills on four previous occasions in Piney Point.

"I have been sailing for 30 years," he said. "The union has been important in my life because I am able to have a job and a house. If not for the SIU, I would not have all of

"I would like to thank the union leadership for their hard work and all the things they do to protect our jobs," he said. "During my visit to headquarters I saw firsthand their work as a team. I send

thanks to Mike, Augie, George, David, Maggie, Ambrose, Bobby, Kermett, Jack and Archie. "I would not be here today

if God didn't bless me with good people who supported me 100 percent," he added.

Denizac then thanked the school's instructors and staff for the support they provided to him and his classmates. He urged the apprentices to study hard and always put their best efforts forward.

"I encourage everyone to vote," he added.

Inquiring Seafarer

This month's question was answered by SIU members at the union hall in Honolulu, Hawaii. Please note that information about absentee voting is available online at www.vote411.org, www.fvap.gov and through other sources.

Question: Do you plan to vote in November and why?

Mark Canada *QMED*

Yes. I believe it is my right and my responsibility because of my background and the struggles of my forefathers. I have voted in every election.

Julius Udan AB

Yes, if I am not at sea, because I want to help Democrats.

Jaime Austria Chief Cook

I would like to if I am not out at sea. I want to see a change in the government.

Erni Lizada

Chief Cook
Yes, if I am here. I want a better future for everybody.

Paul Newman DEU

Yes, because my vote counts.

Getolio Medallo QMED

Yes, we need a change and I like Hillary.

Pic From The Past

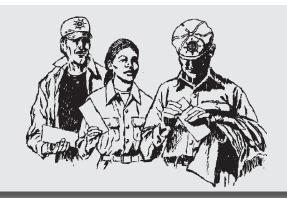

Originally published in an August 1946 issue of the *LOG*, this snapshot features SIU members gathering in Philadelphia for a special meeting which included a review of a newly signed contract between the union and the Mississippi and Waterman Steamship Companies. Reaction to the contract was extremely favorable, as noted in the accompanying article, which read in part: "The signing of the terrific contract with the Waterman and the Mississippi Steamship Companies was the occasion for a large special meeting. All of the men present, and there were quite a few, wanted to take the deck to talk about the glorious victory we won over the operators. There is no doubt about it: this is the best contract ever won by any union of merchant seamen. In this, as in all other matter that concern men who go to sea for a living, the SIU leads the field."

If anyone has a vintage union-related photograph he or she would like to share with other Seafarers LOG readers, please send it to the Seafarers LOG, 5201 Auth Way, Camp Springs, MD 20746. Photographs will be returned, if so requested. High-resolution digital images may be sent to webmaster@seafarers.org

Melcome Ashore

Each month, the Seafarers LOG pays tribute to the SIU members who have devoted their working lives to sailing aboard U.S.-flag vessels on the deep seas, inland waterways or Great Lakes. Listed below are brief biographical sketches of those members who recently retired from the union. The brothers and sisters of the SIU thank those members for a job well done and wish them happiness and good health in the days ahead.

DEEP SEA

MICHAEL ALGHAFEILI

Brother Michael Alghafeili, 68, joined the SIU in 2002. His first

trip was aboard the Atlantic Guardian. Brother Alghafeili sailed in the deck department. He upgraded in 2007 and 2015 at the Paul Hall Center for Maritime Training and Education

Washington. He was born in Minneapolis and now calls Baltimore

MOHAMED ALJAHMI

Brother Mohamed Aljahmi, 65, became a union member in 2003. He initially worked on the Abby G. Brother Aljahmi sailed in the steward department. Brother Aljahmi's most recent voyage was aboard the Maersk Montana. He makes his home in Brooklyn, New York.

JOHN COLEMAN

Brother John Coleman, 66, started sailing with the union in 1967. His

first trip was aboard the Neva West. Brother Coleman enhanced his skills on two occasions at the Piney Point school. The engine department member last shipped on the Cape Hudson.

Brother Coleman lives in Berkley, California.

GERALD COOPER

Brother Gerald Cooper, 65, joined the SIU ranks in 1971. He originally

sailed on the Fairland. Brother Cooper shipped in the engine department. He upgraded twice at the Seafarersaffiliated school in southern Maryland. Brother Cooper's

most recent ship was the USNS Bellatrix. He is a resident of Schenectady, New York.

DENNIS GAFFNEY

Brother Dennis Gaffney, 66, first donned the SIU colors in 2001 when

the NMU merged into the Seafarers International Union. He was a deck department member. Brother Gaffney upgraded in 2000 and 2001 at the Piney Point school.

He last worked on the Overseas Nikiski. Brother Gaffney lives in Anacortes, Washington.

EUGENE GRANTHAM

Digest of Shipboard Union Meetings

The Seafarers LOG attempts to print as many digests of union shipboard minutes as possible. On occasion, because of space limitations, some will be omitted.

Ships' minutes first are reviewed by the union's contract department. Those issues requiring attention or resolution are addressed by the union upon receipt of the ships' minutes. The minutes are then forwarded to the Seafarers LOG for publication.

OCEAN FREEDOM (Crowley) June 16 – Chairman **Thomas** Temple, Secretary Christopher J. Mosely, Deck Delegate Nathaniel Bales, Engine Delegate Fidel Pascua. Chairman announced payoff on June 23 in New Orleans. Secretary reminded crew of STCW requirements. Mariners were urged to upgrade at the Paul Hall Center for Maritime Training and Education in Piney Point, Maryland. No beefs or disputed OT reported. Members were encouraged to read the Seafarers LOG for up-to-date information pertaining to the maritime industry. Request was made for new blu-ray player for crew lounge. Next port: New Orleans.

ISLA BELLA (TOTE) June 5 - Chairman **Timothy B. Fogg**, Secretary Richard K. Wood, Educational Director Ramon L. Borrero, Deck Delegate Tavell R. Love, Engine Delegate Jermaine L. Love. Chairman reported that new chairs for state rooms are on their way and cable boxes for rooms is a work in progress. Secretary asked crew to keep laundry room and lounge neat. Éducational director urged mariners to keep an eye on expiration dates of documents and take advantage of SIU portal for updating information. Members were also urged to enhance skills at the Piney Point school. No beefs or disputed OT reported. Suggestion was made to increase vacation days. Next ports: San Juan, Puerto Rico and Jacksonville, Florida.

MATSON KODIAK (Matson Navigation) June 5 – Chairman Christopher Pompel, Secretary Norman Cox, Educational Director Christopher Earhart, Deck Delegate Wayne Green, Engine Delegate Trevor Cohn, Steward Delegate Joseph Laureta. Bosun

Cape Mohican Crew Sharpens Skills

The SIU-crewed Ready Reserve Force vessel *Cape Mohican* performed a Williamson Turn while en route from Alameda, California, to Portland, Oregon, on Aug. 5. The maneuver was part of a man-overboard drill. AB Shawana Mills is pictured at the wheel (above) while the photoat right features AB Zaid Said (foreground) and Third Mate Steve Corachan, an SIU hawsepiper. The vessel is operated by Ocean Duchess, Inc. Thanks to Michael Thomas for the photos.

recommended mariners pay close attention to shipping documents, make sure all information is correct and up-to-date. If any they had any concerns, they were asked to show union representative to help ensure accuracy. Secretary reported that new sheets, pillows and blankets have been ordered. Educational director talked about new STCW training required in 2017. He advised all mariners to take advantage of upgrading opportunities available at the Paul Hall Center in Piney Point,

Maryland. No disputed OT; beef reported in the engine department. Steward department was thanked for exceptional desserts and meals. It was noted that hiring halls have two job calls per day, at 1000 and 1400. Crew members sent congratulations and thanks to member of *LOG* staff for 25 years on the job. Next ports: Tacoma, Washington, Anchorage, Alaska and Kodiak, Alaska.

USNS MAJOR STEPHEN PLESS (Keystone Shipping) June 12 – Chairman Duane R. Frosburg, Secretary Ernest Dumont,
Educational Director Mario J.
Delacruz, Deck Delegate Lloyd
Labeach, Steward Delegate
Rashawn Arrington. Chairman
talked about desire to increase
vacation days in upcoming contract
negotiations. Crew members would
like email access. Question was
raised concerning ROS crews
and reclaiming jobs. Educational
director urged everyone to keep
all documents up-to-date. No
beefs or disputed OT reported
by department delegates. Crew

reported a safe journey.

GREEN BAY (Central Gulf Lines) July 17 – Chairman Pablo Borja, Secretary Joseph Welle, Educational Director Febian M. Jefferson, Steward Delegate Penny Pollard. Chairman went over ship's itinerary and encouraged crew to donate to SPAD (Seafarers Political Activity Donation) for job security. Secretary discussed the Seafarers Health and Benefits Plan scholarship program and read the names of the 2016 recipients. Educational director urged members to enhance their skills at the Paul Hall Center to excel in their positions. He also advised them to keep documents current. No beefs or disputed OT reported. Those departing vessel were asked to clean state rooms for next mariners. Steward department was thanked for excellent food. Room inspection on July 18 was announced.

LIBERTY PROMISE (Liberty Maritime) July 10 – Chairman David Denizac, Secretary Donna Hickman, Deck Delegate Victor Eligio, Engine Delegate Rodolfo Delacruz. Bosun advised crew members to read president's report in Seafarers LOG. Educational director recommended training at the Piney Point school and applying for scholarships when available. No beefs or disputed OT reported. Seafarers would like internet service, refrigerators and electric fans for crew rooms. New gym equipment and cheaper phone cards were also requested. Next ports: Charleston, South Carolina, Jacksonville, Florida and Beaumont, Texas.

OVERSEAS NEW YORK (OSG) July 19 – Chairman Jerry Sobieraj, Secretary Judi L. Chester, **Educational Director Ashley** Carmichael, Steward Delegate Jorge Ellis. Bosun recommended mariners read the Seafarers LOG to stay current on issues facing maritime industry. Educational director urged fellow crew members to try to be healthy. With all the physical requirements. your health is important to your livelihood. Treasurer reported \$2,200 in ship's fund. No beefs or disputed OT reported. Members requested refrigerators for crew rooms and reliable Wi-Fi.

Seafarers Partake in Independence Day Feast Aboard H. Lee White

Steward department personnel aboard American Steamship Company's *H. Lee White* made sure there was no shortage of appealing menu selections for the main meal on July 4. Offering full-service selections for a couple of hours followed by self-service options, the galley gang put out appetizers including pickled shrimp with lemon chive aioli, deviled eggs, and turkey dip; entrees such as St. Louis-style BBQ ribs, smoked beef brisket, char-grilled lamb chops, chicken shish kebab, hot dogs, hamburgers, and assorted sausages; a half-dozen side orders including candied yams and rice pilaf; and various desserts. Recertified Steward Bobby Darku is pictured at left in photo below with

SA Nasser Ahmed. A few of their shipmates are shown in the photo at top right, while the remaining

Basic Training (Firefighting) - Seafarer Artis Pilgrim (above, right) completed his requirements in this course and graduated July 8. Helping to celebrate his achievement is his instructor, John Thomas.

Basic Firefighting – Sixteen upgraders completed this course July 15. Graduating (above, in alphabetical order) were: Alexander Banky III, Nelson Tulio Bernardez, Mark Billiot, Jonathan Brown, James Gregory, Julio Guzman, John Huyett, Aurora Kirkwood, Nelson Arnaldo Montoya, Ronnie Rankin, Salahuddin Fadl Saleh, Albert Sison, Jacqueline Sivels, Sacarias Suazo, Anthony Sumlar and John Young. Their instructors, Mike Roberts and Leonard Johnson Jr., are at the far left and far right, respectively.

Paul Hall Center Classes

Basic Firefighting – Sixteen upgraders completed this course July 29. Graduating (above, in alphabetical order) were: Kenneth Abrahamson, Ritche Asumbrado Acuman, James Blitch Jr., William Dowzicky III, Vincente Dunbar, Nives Calixto Guerrero Mariano, Paul Inniss, Jerome Jordan, Juma Saleh Juma, Hussein Abdul Mohammed, Manuel Orlando Rodriguez, Ron Sagadraca, Stig Sasse Jr., Julius Thomas, Cortney Williams and Tecumseh Williams. Class instructor Mike Roberts is at the far right.

Water Survival – Two upgraders completed their requirements in this course July 15 at the Paul Hall Center for Maritime Training and Education in Piney Point, Maryland. Graduating were Seafarers Marvin Fabrizius (above, left) and Kenneth Lockhart.

Basic Training Revalidation – The following Seafarers (above, in alphabetical order) finished this course July 29: Tyesha Boyd, Dante Fernandez Cruz, Matthew Dalgetty, David Denizac, Kabir Garcia Santiago, Tesfaye Gebregziabher, Claude Letts, Karl Mayhew III, Shawana Mills, Jan Morawski, Shereka Morris, Jesse Natividad Jr., Michael Papaioannou, Jayne Peterson and John Zarroli Jr. Their instructor, Mike Roberts, is at the far right.

Certified Chief Cook – Four Seafarers, all of whom sail in the steward department, completed the enhancement of their skills in this course July 29. Graduating (above from the left) were Sharray Turner, Keith Small, Juan Ramon Iglesias and Jorcell Davis. John Dobson, their instructor, is at the far right.

Advanced Galley Ops – Two members of the steward department completed their requirements in this course July 16. Graduating (above, from left) were Rene Fernando Gil and Ashley Lee. Celebrating the duo's achievement with them is instructor Jesse Sunga.

Certified Chief Cook - Four steward department Seafarers late last year upgraded their skills in this course. Graduating (above, in alphabetical order) were: Theophil Igielski, Mary Maddox, Ferando Javier Marquez Ortiz and Wilson Peniston.

Advanced Galley Ops - The following steward department upgraders (above, in alphabetical order) recently improved their skills by completing this course: Adam Bucalo, Rio Ngitong Cuellar, Sulay Esmenia Martinez, Dennis Redding and Johnny Sawyer. Jesse Sunga, their instructor, is at the far left.

Chief Cook - A pair of steward department Seafarers graduated from this course late last year. They are Dalino Valencia (above, left) and Gilbert Allende.

SEAFARERS LOG

OFFICIAL PUBLICATION OF THE SEAFARERS INTERNATIONAL UNION · ATLANTIC, GULF, LAKES AND INLAND WATERS

Operated by Maersk Line, Limited, the vessel spent three days discharging cargo. In the photos at left and above, the tanker approaches Thule Air Force Base.

SIU Members Deliver in 'Pacer Goose'

The SIU-crewed tanker *Maersk Peary* recently completed the annual resupply mission to Thule Air Force Base in Greenland. Named Operation Pacer Goose 2016, the deployment required the *Peary* to spend three days discharging cargo at the base before departing on July 16.

A summary of the mission by the Seafarers-affiliated American Maritime Officers noted that the fuel supplied by the tanker is vital and "necessary for the operation of generators used for running the facilities and the operation of infrastructure critical to the U.S. Department of Defense. Airplanes servicing the facility also refuel at the base, and the supply delivered will sustain the base until the arrival of the summer months in 2017."

A Canadian icebreaker provided assistance during part of the voyage, which saw the *Peary* sail up the west coast of Greenland, well north of the Arctic Circle. Vessel master Capt. David Perron credited the entire "polar-trained crew" with deftly handling the mission's challenges: "All were enthusiastic and proud of a job well done."
